

2026 Heifer Highlights

Our heifers are special as they are a product of our hard work in the development of animals that will perform well in raising calves. As usual they are the ones that are hardest for Jim to part with as they are all his pets. The bulls used this year were True North and LAF105(Accomplishment). Both offer really good maternal traits which were pretty evident in this year's calf crop. Minimum bid is \$3000. Payment is due the day of sale with pick up that day or arrangements to be made soon after. We will not retain any to breed for you as we have in years past.

LAF506 AAA 21308309 A True North daughter out of a LAF826(Diverse) calf heifer (315) whose DOC is +24. LAF315 is due to calve again in early April. Some good pathfinder cows in this heifer's pedigree. True North is strong in maternal traits so this calf should make a fine addition to your herd.
