

Larson Angus Bull Sale

Sale

Book

Saturday March 29, 2025
1pm Bulls
Heifers Following

Thank you to each of you that have shown an interest in our cattle over the years. We are excited about the bulls that we have to sell this year as we had good conception with the AI we did. The minimum bid for the bulls is \$3500. We will continue to house and condition the bulls until June 1st at no additional cost. Delivery is free within two hundred miles and payment is not due until we deliver the bull to you. The bulls have a freeze brand, magnet, and will be semen tested prior to sale day. Please call if you have questions (712)260-6144 for Jim or Marcia at 712-260-6145.

LOT 1: LAF401 AAA21058215**

This is an exceptional **Dynamic** son out of a **Justified** first calf heifer (LAF203) who gave her all this summer. This may be the best calf that we have raised. We will maintain an interest in semen from him as a condition of sale. This young bull weighed 77lbs at birth and 826lbs at weaning when he was 212 days of age. This was all done without creep feed or feeding supplement hay this summer. His dam (LAF203) had him on her own and she is out of a nice Stellar cow (LAF020) who has the LAF415 bull on the sale. There is a strong line of cows behind this bull. **He is a Heifer Bull. Scrotal size 37cm and semen test 90/90. 17.4-inch Ribeye and 4.3 IMF.**

LOT 2: HB855 AAA21212712

Gibson son out of a Black Granite cow (LAF855) that Jim sold to the Hermstad Brothers. This guy is solid and will make good cows. We recently registered his dam, so she doesn't have a lot of data behind her, but she has been a good producer. HB855 weighed 834 at weaning and 1390 at a year. The dam's AAA21186571. This will be a Heifer bull with discretion. Scrotal size 39 and semen test 90/90. He has a 16.3-inch Ribeye and 3.77 IMF.

LOT 3: MH41(ET) AAA21146183

This bull is an embryo transfer from their donor cow. He is sired by **KG Justified** and the Dam is 61 **Capitalist** cow (61). He is a full brother to the two high selling bulls from last year's sale. He weighed 83 lbs. at birth and 765 at weaning. **He is a Heifer Bull. His scrotal circumference is 40 and semen test is 90/90. He has a 13.6-inch Ribeye and 4.36 IMF.**

LOT 4: LAF406 AAA21058044 A Gibson

son out of a very good **Black Granite** cow (LAF856). He was over 700 lbs. at weaning and is gaining well at around 3.7lbs per day. The dam behind this cow has made some nice cows. Last year's heifer was one of the favorites that we kept. We think this young Gibson bull will get the job done. **He is a Heifer Bull with Discretion. Scrotal 39.5 and semen test 90/90. He has a 15.1-inch Ribeye and 3.28 IMF.**

LOT 5:

LAF415**

AAA21057741 This is a Dynamic son out of a Stellar cow (020). His dam is the mother to the LAF203 heifer that raised the LAF401 bull that is on our sale. LAF415 weighed 786 lbs. at weaning and 1285 at a year. He has carcass traits for Certified Angus Beef. We believe his mother is earning her way to one of our top cows. She is a pathfinder and has been bred back on time and has no trouble raising her calves. 020 is also linked to the LAF302 cow that we sold the Hermstad brothers whose HB302 bull is on the sale. **We are calling this bull a Heifer Bull. Scrotal circumference 39 and semen test 90/90. His Ribeye was 14.2 inches and 3.4 IMF.**

LOT 6: MH113 AAA21146172

This is a natural calf out of our **Capitalist** donor cow (MH61) and sired by **LAF105(Accomplishment)** that we used for cleanup. This is an April calf that is growing well at 3.9 lbs. per day in the pen. He weighed 93 lbs. at birth, weaned at 680 lbs., and weighed 1220 at 11 months. **He is identified as a Heifer Bull. His scrotal circumference is 41 and semen test is 75/90. He has a 15.1-inch Ribeye and 3.33 IMF.**

LOT 10: LAF432 AAA21057754 A

Patriarch son out of a **Black Granite** dam (111). His maternal granddam has been a good producing cow for us and there are some of our particularly good home raised bulls in his lineage (LAF402(Absolute) and LAF120(Cedar Ridge)). Both bulls have brought docility to our herd and good maternal traits. LAF432 is a mid-April calf that weaned at 618 and weighs 1140 at 11 months gaining around 3.7 lbs. per day in the lot.

He is a Heifer Bull. Scrotal circumference 38 and semen test 90/90. He has a 16.2-inch Ribeye and 2.4 IMF.

LOT 19: HB607

AAA21212756 Gibson son out of a LAF402(Absolute) dam (LAF607). There are some good cows in this bull's background. The granddam has been a solid producer for Jim over the past 10 years and has raised some nice calves. LAF607 has been doing the same for the Hermstad's and has traits for Certified Angus Beef. This bull is considered a **Heifer bull with discretion. His scrotal circumference is 38 and semen test is 75/90. He has a 14.7-inch Ribeye and 5.97 IMF.**
