

2026 LARSON ANGUS BULL SHEET

This is a preliminary info sheet. We will update it as we have more data prior to sale day. The sale will be March 28, 2025 at 1pm. We used a variety of sires this year. LARSON ANGUS had 3 main sires: True North, Woodhill Comstock, and LAF105(Accomplishment). All produce excellent heifers and have strong maternal traits. We believe that good cows will make you great calves. HINNERS family used Gibson and LAF209(Justified) who are also good maternal bulls. HERMSTAD's used their good herd bulls that were obtained via our prior sales. MH 31, MH 32 and LAF 241 were the primary sires who are all calving ease and have good cows behind them. The minimum bid for bulls will be \$3500. The bulls have a freeze brand, magnet, and will be semen tested prior to sale day. Please call if you have questions (712)260-6144 for Jim or Marcia at 712-260-6145. Marc Hinnners (712)299-7911 or David Hermstad at (712)334-0217.

LAF501 AAA 21308307 True North son out of a Patriarch first calf Heifer 303. Her dam is our Stellar 020 cow and she is a pathfinder who has raised some amazing heifers including the 203 heifer who produced last year's top bull (LAF401). If you want a bull that has some good cows behind him, this is one to look at. LAF501 weaned at 503lbs and weighed 702 when the bulls were put together. He has a calving ease direct of +12. **He is a heifer bull.**

LAF502 AAA 21308305 True North son out of a Patriarch first calf heifer (304). His dam is out of a Stellar dam 021. This calf weaned at 648 and weighed 808lbs after 35 days. This guy was friendly from day one and would come up and greet you whenever you were in the pen. Fortunately, he has grown out of that. 502 has genetic traits that qualify him as a Certified Angus Beef rating. He has a calving ease direct score of +15 so you should be able to sleep at night with his calves. **He is a heifer bull.**

LAF509 AAA 21297855 This bull is out of True North and a Stellar cow (110). This bull is solid with a really good young cow behind him. She has produced two heifers previously. They were keepers and showing their worth. Her daughter has the 505 bull on the sale who is also a solid bull. Docility is a trait that we aim for with our herd. LAF509 has a docility score of +27. He will also give you some good cows with good teats and udders as well as good feet. 509 weaned at 616 lbs and continues to have a consistent gain.

LAF519 AAA21308502 A Comstock bull out of a great Black Granite dam (856). This bull should make you some good

productive cows. He weighed 79 lbs at birth and 663 at weaning. He has traits that qualify him for Certified Angus Beef producer. This bull will bring you some strong maternal traits and shouldn't break the bank on feed. If you follow value indexes he has a \$C of +323. He has a Calving ease direct of +9 in his EPD. We did DNA testing and they ranked him in the top 13% for CED. **He is a Heifer Bull.**

LAF524 AAA 21238686

is a LAF105(Accomplishment) bull out of a Patriarch dam (203) who raised our LAF402 bull last year. We have found that LAF 105 has made some nice cows. His mother (933) was out of a extremely productive pathfinder cow (033) for us. LAF524 shouldn't be any different as he will add good maternal genetics. His granddam (020) is a pathfinder and has made some exceptional young cows for us.

MH52 (ET) He is a Gibson son out of Hinnars 61 Capitalist cow from which they have harvested eggs. He weighed 81 lbs at birth and was born February 1st. He weaned at 656 (204 days).

MH53 is a Gibson son out of a Stellar dam. He was born February 5th weighing 83 lbs. He weaned at 622lbs (200 days).

MH54 is a Gibson son out of a Southern Charm dam. He weighed 88 lbs when born February 11th and weaned at 682 (194 days).

MH56 is a LAF209(Justified) bull out of a Substantial dam. He weighed 77 lbs at birth Feb 28th and weaned at 506 lbs (194 days).

HB31* is a MH 31/32 son out of a 11 year old cow sold to the Hermstad's by Jim. Unfortunately, she can't be registered but may be a LAF120(Cedar Ridge) dam. We plan to test the bull to see if we can determine parentage. This bull has been a standout since birth. 1st wt was a week after weaning and he registered 844lbs at 222 days. He was provided access to creep feed while on the cow also.

HB 302 Is out of a herd bull MH31/32 and a Cedar Ridge dam (LAF 302). She is 12 years old and a productive pathfinder cow that Jim sold to the Hermstad Brothers. There are several good dams behind this one.

HB531* Is out of LAF241(LAF120Cedar Ridge) and a 10-year-old Stimulus dam (LAF531). While she can't be papered she has proven herself over the years.

HB833 Bull out of MH31/32 and a Black Granite dam (LAF833). There are some good cows behind this bull. His granddam (LAF133) is a pathfinder who raised several good calves or Jim Larson.

HB840 is an early April bull out of MH31/32 and a Diverse cow (LAF840). This dam is out of the LAF302 cow who has produced some very good cows.

2026 LARSON ANGUS BULL SHEET

HB855 is a bull out of MH31/32 and Black Granite cow (LAF855) that Jim sold to the Hermstad Brothers. This guy is solid and will make good cows. We registered his dam last year so she doesn't have a lot of data behind her, but she has been a good producer.
