Mopar Restoration Decals + NALRETO Certified Decals for LRE

*All decals are reproductions and may not be exact materials or images as original. MPS does not claim to identically meet any specifications; MPS tries to duplicate decals for restoration purposes only. Decals shown below may be correct for other vehicles not listed in description. When ordering multiple decals, shipping is greatly reduced. Decal shown may not be actual size, decals may be reduced in size to fit page. If you need a decal not shown, send photo with dimensions and MPS can try to reproduce it. NALRETO Certified decals may also be correct for other Mopar vehicles.

New Decals for Other Mopar Vehicles are Added Often!

Decal application information and help listed on page 7.

To place an order, E-Mail your requests to thempshopmail@gmail.com

For decal locations on your Lil Red Express Truck; reference the Visual Identification Handbook created by John C. Roberts.

Chrysler Certification Labels

****When ordering a MDH, a photo of your original tag with dimensions is best. Every tag is slightly different on the placement of the text, so if no photo is available, the text will be centered and aligned horizontally in each box. If original tag is not legible, you must provide information you would like in each box. MPS will also try to also reproduce any Mopar MDH tag with a photo and dimensions provided.**

AMC Certification Decals - \$30 + shipping. Order Number— AMC Cert

Dodge Truck Equipment Build Decals

****When ordering a Build Decal a photo of your original tag is best. Every tag is slightly different on the placement of the text, so if no photo is available, the text will be centered and aligned horizontally in each box. If original tag is not legible, you must provide information you would like or options of your truck. When these decals were produced at the Chrysler factory; many mistakes were made, missing options, options listed twice, ect..... With this said, no decal was perfect or correct. With a photo with legible data, MPS can reproduce your decal like your original.**

Dodge Truck Equipment Build Decal NARLETO #243 - \$35each + shipping. Order Number– NARLETO # 243

The MPS Build Data Decal is customized for your vehicle, others you may find is a blank sheet and you need to fill in the options data.

Decal Installations Instructions

*****Failure to follow any of these instructions may result in damage to the decal and may cause the decal not to adhere properly.**

Make sure surface is clean before applying the decal. Isopropyl (rubbing) Alcohol is best for cleaning. The surface must be smooth and clean in order for decal to properly adhere. If installing on plastic surfaces, use Denatured Alcohol to clean plastic surfaces.

Always test small inconspicuous area when cleaning first! MPS cannot be responsible for damages surfaces. You may want to research cleaning techniques and procedures for all materials.

Peel ½ or portion of the decal from backing and hold the decal in the area with the remaining backing material. Position the decal and apply the adhesive side to the surface. Once decal is located in correct position, remove the remaining backing material and apply the 2nd half of the decal.

Starting from the center, use a smooth edge (such as a squeegee, credit card or your fingers may be sufficient depending on size of decal) to remove air from between the decal and the surface.

To clean decals, use soap and water only. Do not use solvents or acid base cleaners, using these types of cleaners will damage the decals.
