30 Oral Strips
Dietary Supplement LIFE WISE

Key benefits and ingredients:

GMI®- With over 22 patents and 45 peer reviewed clinical studies, this peptide is a powerful immune modulator.

Life Wise owns the exclusive rights to this peptide, derived from the Ganoderma (reishi mushroom) developed at the University of Taiwan.

Zinc- Zinc has many clinical studies showing its supportive role in proper immune function. Your white blood cells need zinc. Our supplier has created a nano particle of this element for quick oral absorption.

Vitamin D- Vitamin D is the basic building block vitamin necessary for proper immune support. We use only nano sized vitamin D molecules for the quickest absorption possible.

Quercetin- Quercetin is a powerful flavonoid used widely to support immune function especially shown in many studies to support healthy immune function during allergy season.

Beta cyclodextrin- A very unique heptasaccharide in the oligosaccharide family. Its unique structure allows it to bond with certain ingredients and carry them through the blood stream and into the cell. It is widely used in the pharmaceutical industry even though it is a natural sugar.

Shield is perhaps the most powerful and effective immune supportive nutritional supplement in the world. Using only clinically proven ingredients including the patented molecule G.M.I.®, you now have access to this powerhouse in an easy to use oral strip that melts in your mouth.

Supplement Facts

Serving Size: 1 Oral Strip

Servings per Container: 30

	Amount Per Serving	% Daily Value
