The following article is for general information only, and should not be construed as legal or medical advice.

Empower Yourself – Know Your Rights!

Understanding how COVID-19 Measures Violate Your Charter, Provincial Consent, Privacy and Human Rights

Do You Know Your Rights are being Violated?

Many Canadians do not know they have rights, let alone how the COVID-19 measures are violating these rights.

- They do not know that their **medical information and choices they make about their health is private** and that **no one has the right to ask them about that**, except their licensed medical doctor.
- They do not know that they are **violating someone else's human rights by asking them to provide proof of their private medical information** (vaccine passports).
- They do not know that they are **discriminating against another human being if they refuse to serve them** because of their private medical choice (unvaccinated) or they refuse to disclose their private medical information (vaccinated or unvaccinated).
- They do not know that **hand sanitizers, masks, testing and vaccines for COVID-19 are all medical treatments that require their informed consent**.
- They do not know that there are **Canadian and International laws that protect their "informed consent"**– and that these laws derived from the Nuremberg Code which held those responsible for *crimes against humanity* under Nazi rule during the Nuremberg trials.
- They do not know that **no one has the right to ask them for their ID**, except a Police Officer and there are exceptions to that.
- They do not know that there are **federal and provincial laws that protect their privacy**.
- They do not know that **they own their body**.

STAND UP  DEBOUT
CANADA CANADA

Did you know that you have these rights? And how do you feel now, knowing that they have been violated under the guise of COVID-19 measures? And that you are quite possibly violating someone else's rights?

Most people cannot afford a lawyer. That's where Stand Up Canada comes in. This document serves to educate you on your rights so that you can stand up for yourself and not harm another. It also is meant to empower you to take action.

Understanding your rights can seem to be daunting. We want to lessen this burden for you.

We are presenting the material to you in the order below, to help you easily grasp this. The importance of understanding how the COVID-19 measures are violating your rights is paramount to getting them back.

Please EMPOWER yourself with this knowledge then STAND UP for yourself and your loved ones.

If you are someone who is violating someone else's human rights, please STOP saying "I am just following orders". You will have to live with this the rest of your life.

Table of Contents:

To make it easy for you to understand, we have broken this subject down into 7 parts:

Part 1: Your Legal Rights 101

Part 2: Background on the Charter You May Find Useful

Part 3: Critical Thinking – Converting Deaths to Percentages

Part 4: Identifying COVID-19 Measures – Understanding how they Violate Your Rights

Part 5: Identifying Multiple Parties Violating Your Rights

Part 6: How COVID-19 Measures Violate Charter Rights

Part 7: What is Your Conclusion?

Part 1: Your Legal Rights 101

There are **two** basic types of legal rights that these measures are violating:

1. Federal – constitutional rights
2. Provincial - health care consent, privacy rights and protection from discrimination

Civil rights can be confusing. That's where Stand Up Canada comes in! Here is an easy breakdown for you of the purpose of each type of legal right.

Type of Legal Right	Name	Purpose
Federal	Canadian Charter of Rights and Freedoms; also known as The <i>Charter</i>	<p>Created and enshrined under the Constitution Act in 1982; constitutional rights</p> <ul style="list-style-type: none"> • Applies to federal employees • <i>Charter</i> does not apply to private interactions between individuals or businesses • However, constitutional values apply to all individuals in the case where businesses or institutions are carrying out government action that infringes on the rights and freedoms in the <i>Charter</i>
	Charter of Human Rights and Freedoms (Québec)	<p>Québec provincial government created their own Charter in 1975</p> <ul style="list-style-type: none"> • Applies to all provincial employees • Québec provincial government did not sign the Constitution Act in 1982 (whereas the Canadian Charter was created and enshrined into the Constitution in 1982) • However, in order for the Québec Charter to be considered constitutional (as if under the Constitution Act), all laws in Québec must respect the Canadian and Québec Charter
Provincial and Territorial	Health Care Consent Rights	<p>Protects your right to give informed consent for all medical treatments</p> <ul style="list-style-type: none"> • Your doctor must tell you all the risks and benefits associated with all medical treatments and procedures BEFORE you undergo anything, so that you can make an “informed” decision and provide your “consent”
	Privacy Rights	Protects your private information; ID and medical
	Canadian Human Rights	<p>Protects you with equality rights and from discrimination in employment, housing and providing goods and services to the public</p> <ul style="list-style-type: none"> • There are specific “protected grounds” such as age, gender, religion, disability, colour, etc.

Part 2: Background on the Charter You May Find Useful

Your *Canadian Charter of Rights and Freedoms* is referred to as your Constitution or simply the *Charter*. It contains 34 sections. When you hear people say that actions are against, infringe, or violate the *Charter*, the Constitution, or are unconstitutional, this is what they are referring to. The *Charter* falls under Canada's Constitution and is only a small part of it. Your constitutional rights are important and they must be upheld.

Part 3: Critical Thinking – Converting Deaths to Percentages

It is time to engage critical thinking! Below are the covid related deaths statistics for 2020 and 2021 to date. In order to determine if covid is serious a threat to our population, we need to look at the total deaths and then convert it to a percentage. This helps put things into perspective.

2020 Statistics – up to December 31, 2020	
Canada's population	37,855,621
# of Covid-19 "related" deaths	15,651
% of Canadians who died	0.04%

2021 Statistics – up to October 31, 2021	
Canada's population	37,855,621
# of Covid-19 "related" deaths	13,301
% of Canadians who died	0.04%

The reason we are listing these statistics up front, is that you need to ask yourself if any of the following COVID-19 measures outlined below are really *justified* when you see the number of deaths and percentages presented this way. **Remember this for when you get to Part 6 with the introduction to section 1 of the *Charter*.**

Part 4: Identifying COVID-19 Measures – Understanding how they Violate Your Rights

The following is a list of COVID-19 measures with their descriptions and important notes that contains supporting facts. We are explaining how they violate your **Charter, provincial consent, privacy and human rights (protection from discrimination)**. These measures actually violate multiple *Charter* sections you will see further below under Part 6.

List of COVID-19 Measures:

Mandatory Vaccine Passports

- **Unconstitutional**
 - “Vaccine passports” are a violation of sections 2, 6, 7 and 15 of the *Charter*.
- Invasion to your **privacy rights**.
 - Having to show any place of business your medical status as a condition to receive service is an outrageous violation to your medical privacy – your medical privacy is no one’s business except you and your doctors!
 - Here is where to find your [provincial and territorial privacy rights](#)
- Having to present a “vaccine passport” as a condition to receive service, employment or housing is a human rights **discrimination**.
 - Here is where to find your [provincial and territorial human rights](#) agency to make a complaint

Mandatory Vaccination for COVID-19

- **Unconstitutional**
 - “Mandatory vaccination” are a violation of sections 2, 6, 7 and 15 of the *Charter*.
- Mandatory vaccination is **illegal** in Canada – [vaccination is voluntary](#) and should not be used as a condition to participate in society.
- Requires YOUR **informed consent** under your provincial health care consent act.
 - Here is where to find your [provincial/territorial health care consent](#) laws.
- Violates international human rights - informed consent laws
 - [Nuremberg Code](#)
 - [Crimes Against Humanity and War Crimes Act, 2000](#)
 - [World Medical Association \(WMA\) Declaration of Helsinki – Ethical Principles for Medical Research involving human subjects](#)
 - [Universal Declaration on Bioethics and Human Rights](#)
 - [International Covenant on Civil and Political Rights](#)
- Having to be vaccinated as a condition to receive service, employment or housing is a human rights **discrimination**.
 - Here is where to find your [provincial and territorial human rights](#) agency to make a complaint.

Important Note – Legal Rights to Refuse Mandatory Vaccination:

- Mandatory vaccination in Canada is illegal – learn all of your rights about this by visiting our page called [“Your Right to Refuse Mandatory Vaccination”](#).

Important Note – Virus Not Isolated:

- The virus has [not been isolated](#) and therefore a vaccine is impossible to make.
 - [137 Freedom of Information requests \(40 from Canadian institutions\)](#), reveal that health and science institutions from around the world have no record of SARS-COV-2 isolation/purification.

Important Notes – COVID-19 Vaccines are in Clinical Trials:

- **All of the COVID-19 vaccines are all still in experimental trials until 2023:**
 - [Moderna](#) ends Nov 22, 2022
 - [Johnson & Johnson's Janssen](#) ends Jan 2, 2023
 - [AstraZeneca](#) ends Feb 14, 2023
 - [Pfizer](#) ends May 2, 2023
- What does this mean?
 - Anyone taking one of the COVID-19 vaccines is actually **participating in human clinical trials**; did you know this or were you advised this whenever you received your vaccinations?
- On May 28, 2021 a [New Zealand High Court](#) ruling where the judge deemed it "*reasonably arguable*" that the limited-use provision granted for the vaccine rollout under section 23 of the Medicines Act was "*problematic*", as this was meant to encompass a limited number of patients, and arguably not the whole population.
- Essentially what this court ruling means is that medical clinical trials can only be carried out on a select number of people and that by logic, the entire population cannot be considered a select group.
 - **This is unethical to present mass vaccination of these vaccines in Canada, without having undergone proper clinical trials** for safety and efficacy, and **without giving full disclosure** so that patients can give their "informed consent" to participate in human trials
 - We feel the need to make this relatable; *Most people will not buy shampoo if it is not FDA approved; these vaccines are not FDA approved!*
- Senior health officials, including Canada's Dr. Teresa Tam and United States' Dr. Anthony Fauci have publicly acknowledged that the **covid vaccine may not prevent infection or transmission of the virus** – see [VIDEO of Dr. Tam](#)
 - Since these vaccines are in trial phase until 2023, **medical trials can only be carried out on a select number of people to determine if they are safe and efficient**
 - By logic, **the entire population of Canada cannot be considered a select group**
- **Covid-19 vaccine manufacturers are protected from all liability**
 - This means, if you are injured, you cannot sue the manufacturer – if these vaccines are safe, then why ZERO LIABILITY?
 - We feel the need to make this relatable; *would you buy a vehicle or live in a house or apartment, where the manufacturer or builder did not take responsibility for whatever they built and sold to you by offering you a warranty? (the WARRANTY is the LIABILITY). No, you would not. If you wouldn't do this for these examples, then why in the world would you do this for something that is INJECTED into you and your children's bodies?!*
- Here is an excellent video presentation by the Justice Centre for Constitutional Freedoms on Mandatory Vaccinations and Mandatory Vaccine Passports:
<https://www.youtube.com/watch?v=hcr14keaYx4&t=18sH>

Important Notes – Vaccinate or Terminate:

Are you aware that there are **thousands, possibly millions of Canadians who are losing their jobs** right now because they are choosing not to become vaccinated?

- These are people with 1, 5, 10, 20, 30+ years of employment, with pensions and benefits, mortgage payments and families to feed and clothe.

Do you know that their employers are putting them on “**Unpaid Administrative Leave**” if they will not disclose their vaccine status? This is involuntary unpaid leave. This is punitive action for a medical choice. This is not only wrong, but is a complete breach of employment contracts.

- Are you aware that **this leave provision DOES NOT EXIST** in any current employment contract or Collective Agreement?
- Are you aware that **ALL employers are doing this same punitive action**?
- Like this is a complete lock-step motion.
- All employers doing the same thing.
- Many **unions are using the SAME LAW FIRM** which support ALL employer’s mandatory vaccination policy.

Just when you thought it couldn’t get any worse...

Do you know that **employees who chose not to vaccinate, are being dismissed for CAUSE?**

- And that there are **NO E.I. or Severance** benefits payable?
- How is any of this possible??
- Does any of these seem right to you?

Do you know there are **thousands of first responders who are saying NO to mandatory vaccination?** And that doctors and nurses are having their licenses removed because they are asking questions about the safety and efficacy of these “vaccines”? **If our frontline heroes are saying NO to the COVID-19 vaccinations, what does that tell you?**

- Police, firefighters, paramedics, health care workers across Canada are uniting.
- One formal example is the [United Health Care Workers of Ontario](#) (UHCWO) have already united over 3,000 workers against their illegal mandatory vaccination policies.
- Stand Up Canada helped to UNITE the UHCWO to STAND UP for their rights to medical privacy and choice; if you are a healthcare worker or to learn more, please visit our webpage called “[United Health Care Workers of Ontario](#)”.

Are you not yet affected personally enough to stand up for your rights? What about for your friends or your family who are in this situation - will you stand up for them? Isn't that what Canadians do? We will give you the shirt off our backs. But for some reason, we just don't want to seem to get involved. What is going on?

Come on Canada - STAND UP for your rights!

Mandatory Face Masks

- **Unconstitutional**
 - “Mandatory face masks” are a violation of sections 2, 7 and 15 of the *Charter*.
- Mandating masks to stop the spread of a disease is a medical treatment requiring YOUR **informed consent** under your provincial health care consent act.
 - Here is where to find your [provincial/territorial health care consent](#) laws.
- Ineffective and pose **physical and mental health dangers**.
- Not having your mask exemption honoured while attempting to receive service, employment or housing is a human rights **discrimination**.
 - Here is where to find your [provincial and territorial human rights](#) agency to make a complaint.

Testing for COVID-19 and No Viral Isolation

- Requires YOUR **informed consent** under your provincial health care consent act.
 - Here is where to find your [provincial/territorial health care consent](#) laws.
- Rapid Antigen testing poses **health risks** due to toxic Ethelyn oxide.
 - Toxic substances are a violation to section 7 of the *Charter*.
 - Being denied the freedom of conscience to not consent to testing is a violation to section 2 of the *Charter*.

Important Notes - If Virus Not Isolated Why Testing?

- As stated under “Mandatory Vaccine” [NO evidence of viral isolation](#); so, why are you being tested?
- What does this mean? The government is claiming that “SARS-CoV-2”, which is the name of the virus that is supposed to cause COVID-19, has been isolated. This is false. All of the methodology in the Freedom of Information requests, reveals that it is not true isolation.
- You are being tested for “symptoms”, not the virus.
- How can they possibly claim positive test results, if the “virus” has not been isolated?
- There is NOTHING to compare “testing” to.
- PCR test has been ruled to be ineffective; all those false-positives only create confusion; there is no merit to this test as it is a “diagnostic tool” and should only be used for research.

Self-quarantine (isolation)

- **Unconstitutional**
 - “Self-quarantine” is a violation of section 6 of the *Charter* for travellers returning back to Canada or inter-provincial travel.
- Undue **emotional and physical distress** for the elderly particularly those living in long-term care homes; people living alone and **traumatic for children**.

Can you imagine how scared, alone and isolated you would feel if you were kept ISOLATED from your friends and family for 14 days? With the level of FEAR in your body about dying from a virus that has not been isolated!

Most people do not realize that "isolation" is also a form of torture used in prisons called "SOLITARY CONFINEMENT". Medical experts have agreed that it is a cruel and inhumane form of punishment.

Social Distancing

- Neither scientifically nor medically-based.
- Ineffective and fictional concept.

Hand Sanitizers

- There are NO [hand sanitizers](#) approved by the Government of Canada.
- Health Canada has 153 recalls of [hand sanitizers](#) as they are toxic to humans.
 - School children are suffering most harms from daily repetitive use (rashes, burning of skin).
 - Toxic substances are a violation to section 7 of the *Charter*.

Temperature Taking

- Should only be done by a medical professional.
- Should NEVER be done by a waitress or store clerk, anyone who is NOT a medical professional.
- DO NOT CONSENT to having your temperature taken in any place of BUSINESS.
- They have NO right to do this!
- Requires YOUR **informed consent** under your provincial health care consent act.
 - Here is where to find your [provincial/territorial health care consent](#) laws.

Asking for ID

- Your ID is your name, address and phone number including your date of birth.
- NO ONE HAS THE RIGHT TO ASK YOU THIS (except your medical doctor).
- Bartenders know this!
- Not even the police to some extent.
- Your ID is protected by **privacy rights**.
 - Here is where to find your [provincial and territorial privacy rights](#).
- **Unconstitutional**
 - Having anyone ask you for your ID (unless a Police Officer asks you and only if it is warranted), is a violation to section 8 of the *Charter*.

Closure of all "non-essential businesses"

- Arbitrary and unjustified.
- **Unconstitutional**
 - Closure of all "non-essential businesses" for all non-incorporated businesses violate section 7 of the *Charte.r*
 - This is your right to work, to earn a living, to support your life/family.
- Where is the legal definition of "non-essential businesses"?
 - There is none!

Closures of Churches, Schools, Daycares, Parks & Playgrounds

- Arbitrary and unjustified.

- **Unconstitutional**
 - Closure of churches violates section 2 of the *Charter*.

Part 5: Identifying Multiple Parties Violating Your Rights

To make things worse and more complicated, you need to be aware that there are multiple parties violating your *Charter*, provincial health care consent, privacy and human rights (protection from discrimination).

This gives the illusion that since all government bodies and businesses are doing this, it must be OK.

NO – IT IS ALL UNLAWFUL – ALL MEASURES!

Who is Accountable?

Do you know who is making these orders, the COVID-19 “measures”? It is the Chief Medical Officer for Canada as well as provincial Chief Medical Officers including Public Health Officials – these officials are responsible for all the municipalities by province.

Why is this important to know?

Because Medical Officers are NOT elected officials. This means they are NOT accountable whatsoever for any of these “measures” you and I have been ordered to follow. Medical Officers are paid public servants working for federal and provincial government departments. While they have a term of 5 years or more as Medical Public Officers, they are still employed as public servants thereafter. In other words, they cannot be fired or voted out, as is the case for politicians.

Not only are Medical Officers NOT ACCOUNTABLE, they are also NOT LIABLE for anyone who suffers injuries for wearing a mask!!! It states this on their DISCLAIMER.

Here is Ontario Public Health’s Disclaimer:

- DISCLAIMER: “The application and use of this document is the responsibility of the user. PHO assumes no liability resulting from any such application or use”.
- You can find this at the bottom of this document as a DOWNLOAD.

So, WHO IS ACCOUNTABLE then?

Only your ELECTED officials. The POLITICIANS. The people you VOTED for to run the Country or run the Province for a SPECIFIED PERIOD OF TIME. They are 100% accountable to you, NOT Public Health! They can be voted out of office. You cannot do this with public servants (Medical Officers).

So, why are we taking orders from anyone who is NOT ACCOUNTABLE and NOT LIABLE???

Part 6: How COVID-19 Measures Violate Charter Rights

We know this is long, but if you have made it this far, *well done!*

The first 5 Parts are all informative and provide context for the next and last Part - understanding how COVID-19 measures violate charter rights.

Below are easy to understand descriptions of where the COVID-19 measures are violating your *Charter* rights. Relatable examples are provided to help you understand and see how this may be personally impacting you.

CONSTITUTION ACT, 1982 - PART I **CANADIAN CHARTER OF RIGHTS AND FREEDOMS**

Whereas Canada is founded upon principles that recognize the supremacy of God and the rule of law:

GUARANTEE OF RIGHTS AND FREEDOMS

1. The Canadian Charter of Rights and Freedoms guarantees the rights and freedoms set out in it subject **only to such reasonable limits prescribed by law as can be demonstrably justified** in a free and democratic society.

Section 1 – this section is THE MOST IMPORTANT one.

It is telling you that ANY of your guaranteed rights and freedoms BELOW this section, can be overturned or violated, as long as new measures can be proven to be “**reasonable**” and “**demonstrably justified**”.

In other words, your “guaranteed” rights and freedoms are NOT in fact guaranteed to you.

- The onus is on the State to show that (1) there is a valid legislative objective; and (2) that the measures taken to affect that valid objective, are proportional and not over-reaching.

Government COVID-19 measures are NOT “reasonable” NOR are they “demonstrably justifiable”. All measures are not scientifically nor medically-based nor proven to be effective whatsoever in the case of viral respiratory disease (the flu).

Flashback to Part 2 - look at the number of covid related deaths in Canada converted to percentages of the population. Ask yourself right now if any of these measures are “reasonable” or “justified”.

- **2020: 15,651 deaths = 0.04% of population**
- **2021: 13,301 deaths = 0.04% of population**

2. Everyone has the following fundamental freedoms:

(a) freedom of **conscience** and **religion**;

What does Section 2 (a) mean?

This is your guaranteed right to have the FREEDOM of CONSCIENCE. *This is your sense of what is right or wrong.* FREEDOM of RELIGION. *This is your right to participate in any religious association you want.*

Examples:

- *I believe wearing a mask is potentially harmful to my child's psychological and physical health; I cannot in good conscience allow my child to be required to wear a mask while in school*
- *My religion does not permit me to cover my face or wear a face mask*
- *I am free to practice any religion of my choice, in any religious place of worship*

These "measures" violate section 2(a) - freedom of conscience and religion

- **Mandatory vaccine passports**
- **Mandatory vaccine for COVID-19**
- **Mandatory face masks**
- **Testing for COVID-19**
- **Self-quarantine (isolation)**
- **Social distancing**
- **Hand sanitizers**
- **Temperature taking**
- **Closure of Churches**

Who is violating this?

Canadian Federal government and Canada's Chief Medical Officer

Provincial governments:

- Premiers' Declarations of Emergency
- Provincial Chief Medical Officers' recommendations

Municipal bylaws or Public Health recommendations

Bylaw officers who enforce any measure

Business owners and staff who enforce any measure

Schools and teachers who enforce any measure

2. Everyone has the following fundamental freedoms:

b) freedom of **thought, belief, opinion and expression**, including freedom of the press and other media of communication;

What does Section 2 (b) mean?

This is your guaranteed right to have the FREEDOM to THINK what you want. The right to have your own BELIEFS, OPINIONS and the right to EXPRESS them in any way.

Examples:

- *I don't want to wear a mask because I think it's harmful*
- *I think people should have the right to choose if they want to wear a mask / or get a vaccine, or not*
- *I love singing in Church as it uplifts my soul!*
- *I don't think anyone should take my temperature except my family doctor, and ONLY if I let them do it!*

These "measures" violate section 2(b) freedom of thought, belief, opinion and expression:

- **Mandatory vaccine passports**
- **Mandatory vaccine for COVID-19**
- **Mandatory face masks**
- **Testing for COVID-19**
- **Self-quarantine (isolation)**
- **Social distancing**
- **Hand sanitizers**
- **Temperature taking**
- **No singing in Churches!**

Who is violating this?

Canadian Federal government and Canada's Chief Medical Officer
Provincial governments

- Premiers' Declarations of Emergency
- Provincial Chief Medical Officers' recommendations

Municipal bylaws or Public Health recommendations

Bylaw officers who enforce any measure

Business owners and staff who enforce any measure

Schools and teachers who enforce any measure

Main-stream media, CBC in particular as a Canadian PUBLICLY funded Corporation (we are paying for them!)

2. Everyone has the following fundamental freedoms:

(c) freedom of peaceful assembly; and

What does Section 2 (c) mean?

This is your guaranteed right to have the FREEDOM to GATHER peacefully in a group of your choosing

Example:

– I enjoy going to Church every Sunday morning as it's a vital support group for me now that my spouse has passed

– I enjoy having Sunday supper with my family

These “measures” violate section 2(c) freedom of peaceful assembly:

- **Self-quarantine (isolation)**
- **Social distancing**
- **Closure of Churches**
- **Democratic right to protest (now illegal in some provinces in Canada!!)**
- **Limited to the number of people you can see, and WHERE you can gather**

Who is violating this?

Canadian Federal government and Canada's Chief Medical Officer

Provincial governments

– Premiers' Declarations of Emergency

– Provincial Chief Medical Officers' recommendations

Municipal bylaws or Public Health recommendations

2. Everyone has the following fundamental freedoms:

(d) freedom of association.

What does Section 2 (d) mean?

This is your guaranteed right to have the FREEDOM to BE WITH as many people as you want and WHERE you want.

Example:

– I'm taking little Johnny to the playground for a play-date with his friends and I'm also thrilled to spend time with other adults while he plays

These “measures” violate section 2(d) freedom of association:

- **Self-quarantine (isolation)**

- **Social distancing**
- **Closure of Churches**
- **Limited to the number of people you can see, and WHERE you can gather (family dinners, wedding & funerals)**

Who is violating this?

Canadian Federal government and Canada's Chief Medical Officer
 Provincial governments
 – Premiers' Declarations of Emergency
 – Provincial Chief Medical Officers' recommendations
 Municipal bylaws or Public Health recommendations

6. (1) Every citizen of Canada has the right to enter, remain in and leave Canada.

What does Section 6 (1) mean?

This is your guaranteed RIGHT to COME AND GO as you please, from Canada to anywhere else in the world – provided you respect the out-of-country time limits

Example:

– *We can't wait to go down south in December – we look forward to this each year!*

These “measures” violate section 6 (1) Every citizen of Canada has the right to enter, remain in and leave Canada

- **Mandatory vaccine passports**
- **Mandatory vaccine for COVID-19**
- **Travel denied unless considered “essential” – why does the government have the right to decide for you what you consider to be essential travel?**
- **14 day imposed self-quarantine upon return to Canada and inter-provincial travel**

Who is violating this?

Canadian Federal government and Canada's Chief Medical Officer
 Provincial governments
 – Premiers' Declarations of Emergency
 – Provincial Chief Medical Officers' recommendations

7. Everyone has the right to life, liberty, and security of the person and the right not to be deprived thereof except in accordance with the principles of fundamental justice.

What does Section 7 mean?

This is a very important section as it covers many meanings with the words “life” “liberty” and “security” which applies to all Canadians. This is your guaranteed RIGHT to LIFE, to have SECURITY, to WORK as an employee or own and operate a BUSINESS. Section 7 only applies to non-incorporated businesses.

Examples:

- *Small business is THE backbone of Canada’s economy and we’re proud to fill that vital role!*
- *I’m so lucky that I live in Canada and have the freedom to choose how I want to breathe*
- *I expect no negative consequences for choosing to not vaccinate myself or my dependent children, especially when these “vaccines” are experimental!*
- *There is no way I’m rubbing anything on my hands that is toxic (hand sanitizers)! That poison gets absorbed through my skin, into my body and will make me sick!*

These “measures” violate section 7. Everyone has the right to life, liberty, and security of the person and the right not to be deprived thereof...

- **Mandatory vaccine passports**
- **Mandatory vaccine for COVID-19**
- **Mandatory face masks**
- **Self-quarantine (isolation)**
- **Social distancing**
- **Hand sanitizers**
- **Closure of all “non-essential” businesses**
- **Closure of Schools and Playgrounds**

Who is violating this?

Canadian Federal government and Canada’s Chief Medical Officer

Provincial governments

- Premiers' Declarations of Emergency
 - Provincial Chief Medical Officers' recommendations
- Business owners and staff who enforce any measure
Schools and teachers who enforce any measure

8. Everyone has the right to be secure against unreasonable search or seizure.

What does Section 8 mean?

This is your guaranteed RIGHT for a reasonable expectation of YOUR PRIVACY. Simply stated, police and other government agents cannot, without sufficient reason, invade the personal privacy of individuals. Your NAME, ADDRESS, PHONE NUMBER and your DATE OF BIRTH is YOUR PRIVACY and no one else! **Your MEDICAL INFORMATION IS PRIVATE!**

Example:

– Waitress to patron: “Can I have your name, address and phone number please?” Patron to Waitress: “Are you kidding? You have no right to ask me this. Can I have yours?”

These “measures” violate section 8. Everyone has the right to be secure against unreasonable search or seizure

- **Anyone asking for your ID**
- **Governments and businesses have now decided that you should carry a vaccine passport as a means of your ID**
- **This is a complete violate on your privacy rights**
- **NO ONE HAS THE RIGHT TO ASK YOU THIS (except your medical doctor)**
 - Bartenders know this!
 - Not even the police to some extent
- **Doing so also violates provincial and territorial privacy rights**

YOU HAVE EVERY RIGHT TO WALK AWAY FROM ANYONE ASKING FOR YOUR ID – THERE IS NO LEGAL OBLIGATION ON YOUR PART TO RESPOND

Who is violating this?

Canadian Federal government and Canada’s Chief Medical Officer

Provincial governments

– Premiers' Declarations of Emergency

– Provincial Chief Medical Officers' recommendations

Municipal bylaws or Public Health recommendations

Bylaw officers who enforce asking for your ID

Business owners and staff who enforce asking for your ID

9. Everyone has the right not to be arbitrarily **detained or imprisoned.**

What does Section 9 mean?

This is your guaranteed RIGHT to you and your children to NOT be DETAINED (to lock you up in official custody) or put in PRISON, without legal authority.

Example of arbitrarily detainment:

– Little Suzy has just tested positive for COVID-19 at school, so she’s been removed and placed somewhere else WITHOUT her parents being PRESENT and WITHOUT their permission

This “measure” violates section 9. Everyone has the right to not be arbitrarily detained or imprisoned

- **Quarantine hotels – travellers returning to Canada**
- **Any kind of “camp” for the unvaccinate**

Important Note:

No one can be “held” or “detained” anywhere WITHOUT the legal protections of a fair trial or when someone has been “detained” without any legal basis for the deprivation of their liberty (depriving them of their freedom).

If you or your children have been diagnosed with COVID-19, you:

- CANNOT be detained at a hospital, prison or quarantine centre
- CANNOT be removed from your home

If you or your children refuse to wear a mask or to get a vaccine, you:

- CANNOT be detained

Who will be violating this?

Any Federal or Provincial government who writes new legislation for this

Any Provincial or Public Health Officer who writes new recommendations for this

Any person, group or organization who will be enforcing it

15. (1) Every individual is equal before and under the law and has the right to the **equal protection and equal benefit of the law without discrimination** and, in particular, without discrimination based on race, national or ethnic origin, colour, religion, sex, age or mental or physical disability.

What does Section 15 mean?

This means that every individual in Canada has the RIGHT to be treated with the same respect, dignity and consideration. **Your MEDICAL INFORMATION IS PRIVATE and you should not be discriminated against for your medical choices (again, which is PRIVATE!)**

Example:

– Being provided with the same service regardless of whether have a mental or physical disability that people can or cannot see (in reference to mask exemptions) and the right to not be discriminated against for your disability.

– Being provided with the same service regardless of whether or not you are vaccinated (in reference to conscience and religious beliefs or medical exemptions) and the right to not be discriminated against for your beliefs or exemptions.

These “measures” violate section 15. (1)

- **Mandatory vaccine passports**
- **Mandatory vaccine for COVID-19**
- **Mandatory face masks**
- **Quarantine hotels**

Note – Discrimination for Mental or Physical Disability

- Anyone who has a **mental or physical disability is protected from discrimination** under your provincial Human Rights Code.
 - Here is where to find your [provincial/territorial human rights code](#) .

- If you declare a medical exemption, **no one has the right to ask you to prove it under this section.**

NO ONE HAS THE RIGHT TO ASK YOU ABOUT YOUR MEDICAL CONDITION.

- Except a “Health Information Custodian” AND no one has the right to ask you to prove it under this Section. Doing so also violates personal health information protection which falls under the [provincial/territorial privacy policies](#).
- Business owners or their employees are not Health Information Custodians.
- They have no legal right whatsoever to DENY service for anyone who declares a medical exemption.
- They are not legally allowed whatsoever to “approve” a medical exemption that a patron's (or employee's or student's) medical doctor “issues.”
- They are not legally allowed whatsoever to disregard the medical assessment of a patron's (or employee's or student's) medical doctor.

Who is violating this?

Anyone asking you about your medical condition; asking for proof of it; asking for a medical exemption from your doctor

- Business owners and staff
- Municipal bylaw officers
- Schools and teachers

Part 7: What is Your Conclusion?

If you are reading this and have made it to the end, then *well done!* You are a critical thinker. When you see all the information presented like this, what conclusion have you drawn for yourself?

People hold power over you ONLY for as long as you let them. Take your power back! Stand up and say NO to all of these violations against your *Charter*, provincial health care consent, privacy and human rights.

If all Canadians knew how much their rights were being violated, this would all end.

We believe that knowledge is *potential* power. But *knowledge has no power without action*. And so, our purpose has been fulfilled by giving you this knowledge...the rest is up to you.

SO NOW THAT YOU HAVE THIS KNOWLEDGE, WHAT ARE YOU GOING TO DO WITH IT?
