# Your Natural and Legal Rights to Refuse Medical Treatment

## Table of covid-19 medical treatments – know what you are consenting to

### 2. COVID-19 Measures that are Medical Treatments

covid-19 vaccines  
PCR testing  
antigen test  
antibody test  
masking  
temperature taking  
hand sanitizers

#### Definition of Medical Treatment

- Anything that affects your medical health, whether physically or psychologically

Medical treatment / procedure as mandated by gov't and health officials	What the gov't and health officials claim this should do	What is actually happening
covid-19 vaccination	<ul style="list-style-type: none"> <li>• may protect you from claim of the SARS-CoV-2, which is the virus supposedly to cause cv-19</li> <li>• multiple injections needed</li> <li>• booster shots for rest of your life</li> </ul>	<ul style="list-style-type: none"> <li>• does not meet the definition of a true vaccine</li> <li>• causing potential harm to your body by injecting it with substances NOT approved by FDA</li> <li>• this is an experimental medical treatment – it has skipped human trials of safety and efficacy and was rushed into use under the guise of “Emergency Use Authorization” – whoever takes it now is consenting to the human trials</li> <li>• denies your human immune system to respond</li> <li>• alternative and safer treatments being censored (Ivermectin)</li> <li>• mild to severe adverse reactions including death</li> </ul>
PCR test	<ul style="list-style-type: none"> <li>• this is the diagnostic test</li> <li>• to detect if you have active cv-19 infection</li> <li>• swab test into your nasal cavity or possible throat swab</li> </ul>	<ul style="list-style-type: none"> <li>• PCR tests are not meant be used for <b>diagnosis of any disease</b></li> <li>• PCR is an amplification research tool that only <b>finds genetic material</b></li> <li>• PCR &amp; Antigen are swab tests which contain <b>Ethelyn oxide</b> – used in the sterilization of medical devices (the swab)</li> <li>• Ethelyn oxide is a toxic substance</li> <li>• repeated exposure to this toxic substance will build up in your body</li> <li>• OH&amp;S has permissible exposure <b>time limit</b> for how long employees can be exposed to this without adverse effects</li> <li>• if you are subject to daily or weekly tests AND If you wear a mask at work, this will prohibit your body’s natural expulsion method to remove this and other toxic substances from your body through your nose and mouth (your mask will trap this and other toxins and you will re-breathe it back into your body along with your own carbon dioxide)</li> <li>• possible damage to nasal cavity</li> <li>• possible breach between nasal cavity and Blood-brain barrier (PCR test)</li> </ul>
Antigen test	<ul style="list-style-type: none"> <li>• also a diagnostic test</li> <li>• detects if you have active cv-19 infection</li> <li>• looks for protein markers found on the outside of a SARS-CoV-2 virus</li> <li>• also known as the “rapid test”</li> <li>• swab test at the front opening of your nose</li> <li>• some employers demanding daily/weekly tests</li> </ul>	

Antibody test	<ul style="list-style-type: none"> <li>• blood sample</li> <li>• looks for antibodies in your immune system produced in response to SARS-CoV-2, the virus that causes cv-19</li> <li>• should not be used to diagnose an active cv-19 infection</li> </ul>	<ul style="list-style-type: none"> <li>• contains Ethylene oxide which is used in the sterilization of medical devices</li> <li>• repeated exposure to this toxic substance will accumulate in your body</li> <li>• see notes above for OH&amp;S on permissible exposure limits AND if you wear a mask all day, how this will prohibit you from expelling this and other toxic substances out of your body</li> </ul>
Masking	<ul style="list-style-type: none"> <li>• to protect the spread of the covid-19 virus</li> </ul>	<ul style="list-style-type: none"> <li>• does not stop the spread of virus</li> <li>• face coverings are nothing more than a breathing barrier</li> <li>• harmful to health as they prohibit the natural expulsion of toxins from the body through the nose and mouth</li> <li>• traps moisture and containments</li> <li>• rebreathing in carbon dioxide, resulting in poisoning (hypoxia)</li> <li>• dental issues (mask mouth)</li> <li>• dermatitis issues</li> <li>• respiratory issues</li> </ul>
Temperature taking	<ul style="list-style-type: none"> <li>• to detect high temperature</li> </ul>	<ul style="list-style-type: none"> <li>• laser temperature taking pointed at your pineal gland may have unknown consequences to this gland</li> </ul>
Hand sanitizers	<ul style="list-style-type: none"> <li>• used to protect you from the cv-19 virus</li> </ul>	<ul style="list-style-type: none"> <li>• none approved by the Government of Canada</li> <li>• Health Canada has 151 recalls as they are toxic and pose risk to health</li> <li>• destroys the microbiome which is your body's natural and first defence against bacteria and virus</li> </ul>
