7 churches, 1 mile! Our walk stays outdoors, noting the architecture, history and burial grounds. While most of these buildings are closed to the public during the week, depending on our timing, we should be able to peak inside a few of these grand structures. We cannot do a formal speaking tour inside, but, you should be able to individually get a glimpse into these centuries old testament to America's original houses of worship. We will also admire several Charleston historic landmarks along the way.
