

## Programming Steps Learned

	Graphics	Program Steps	If Condition	For Loop	Functions	Storage Array	Input/Output	Projects
<b>Level 1</b> 6 programs	Lines coordinates Triangle rectangles	Part of all programs			Internal functions		mouse	3
<b>Level 2</b> 7 programs	Arc Lines Arc-application Translate image	Part of all programs		For loop	Internal functions		mouse	2
<b>Level 3</b> 6 programs	Circles Lines Ellipse Image	Part of all programs	If condition		Internal functions		Mouse keyboard	2
<b>Level 4</b> 5 programs	Circles Rectangles Rotate Translate	Part of all programs	If condition	For loops Nested for loops	Functions Internal and external. Passing parameters		mouse	2
<b>Level 5</b> 5 programs	Circles Rectangles Shading	Part of all programs		For loops Nested for loops	Internal functions	Array Array function 2D array Array application	mouse	2
