

BRAGGING ROOSTER

BEER AND MEAD

OUR STORY

The **Bragging Rooster** is a representation of a time when the earth was revered and those who made mead, made it with ingredients they harvested. In the Early Middle Ages, the age of the Nordic people, if you didn't grow or gather it, you didn't have it.

The Tree: Norse mythology consists of Nine Worlds that flank a central sacred tree, Yggdrasil. Yggdrasil [eeg-drass-ill] is also commonly referred to as the Tree of Life or the World Tree. The position of the tree in the center serves as a source of luck and protection. The branches of the tree extend far into the heavens, and the tree is supported by three roots that extend far away into other locations.

The Rooster: Viðófnir [Veedh-ohpner] is a golden rooster that inhabits the crown of the tree, guarding the gates to the land.
