## ASL EXPERIENCE

ASL Skills. Please rank your ability to use American Sign Language.
$\qquad$ Basic Communication-This is the equivalent of ASL 1. You have a basic vocabulary, you have basic understanding of fingerspelling, signs, and culture. You could carry on conversation related to school, family, and hobbies, but would not feel comfortable translating or facilitating between a signer and a non-signer. You are still nervous about signing in front of deaf ASL users.
$\qquad$ Conversational Communication-You can easily carry a conversation on familiar topics between adult sign language users, but would have difficulty if asked to voice for a non-signer. Your vocabulary is extensive, but not advanced and technical vocabulary is not advanced. This is the equivalent of ASL 2-3 course work. You are nervous, but can put those nerves aside to converse with deaf people.
$\qquad$ Advanced Communication-You can easily carry on a conversation with native users with ease. You easily translate between ASL users and SEE users. You could comfortably sign or voice for a Deaf user, with minimal error. Communicating with deaf people is natural.
$\qquad$ Native Language-You are a Deaf person or CODA who uses ASL as a primary home language. If growing up as a CODA, your ASL could easily be mistaken for Deaf rather than hearing.
