Award-Winning Comedy Short *Retrieving Roadie* Now Playing at PDX's Microcinema

Waldport, Oregon, October 19, 2025 – The award-winning, animated dog rescue comedy short *Retrieving Roadie* is appearing at Portland, Oregon's Hollywood Theatre Airport Microcinema.

The *PDX Airport Microcinema* is a free, 22-seat cinema located in the "C" Concourse, showing short films by Pacific Northwest filmmakers. The current program runs through mid-January of 2026, so it'll be seen by countless airport travelers over the next three months.

Retrieving Roadie is inspired by the true story of how screenwriter and executive producer David "Craig" Williams rescued a dog from a Texas kill shelter and ran the 1,700-mile gauntlet in a blizzard to reach his New England home.

The film has won numerous awards and nominations, including Best Animated Film at the Oregon Short Film Festival Spring 2025, Best Animated Film and Best of Block Audience Award at the 2025 Rock the Shorts Film Festival and Best Animated Short at the 2025 Studio City Film Festival.

To bring *Retrieving Roadie* to screens, Craig teamed with Producer/Story Artist Blake Larson along with Studio Tahluk Director/Producer/Animator Luke Stone and Animators Maxine Carey-Gorey, Jackie Gorman and Susie Chong. Studio Tahluk created sequences for 2024's *Blake Edwards: A Love Story in 24 Frames*, part of the PBS American Masters Series.

About Retrieving Roadie Productions:

David "Craig" Williams established Retrieving Roadie Productions in Oregon in 2023 to produce and promote his films. In addition to *Retrieving Roadie*, Craig has written comedy and drama feature films and a TV comedy pilot.
