## Doctor and Nurse Application

Patient information at the fingertips even when Doctor is away from the hospital.

Available on Ios & Android

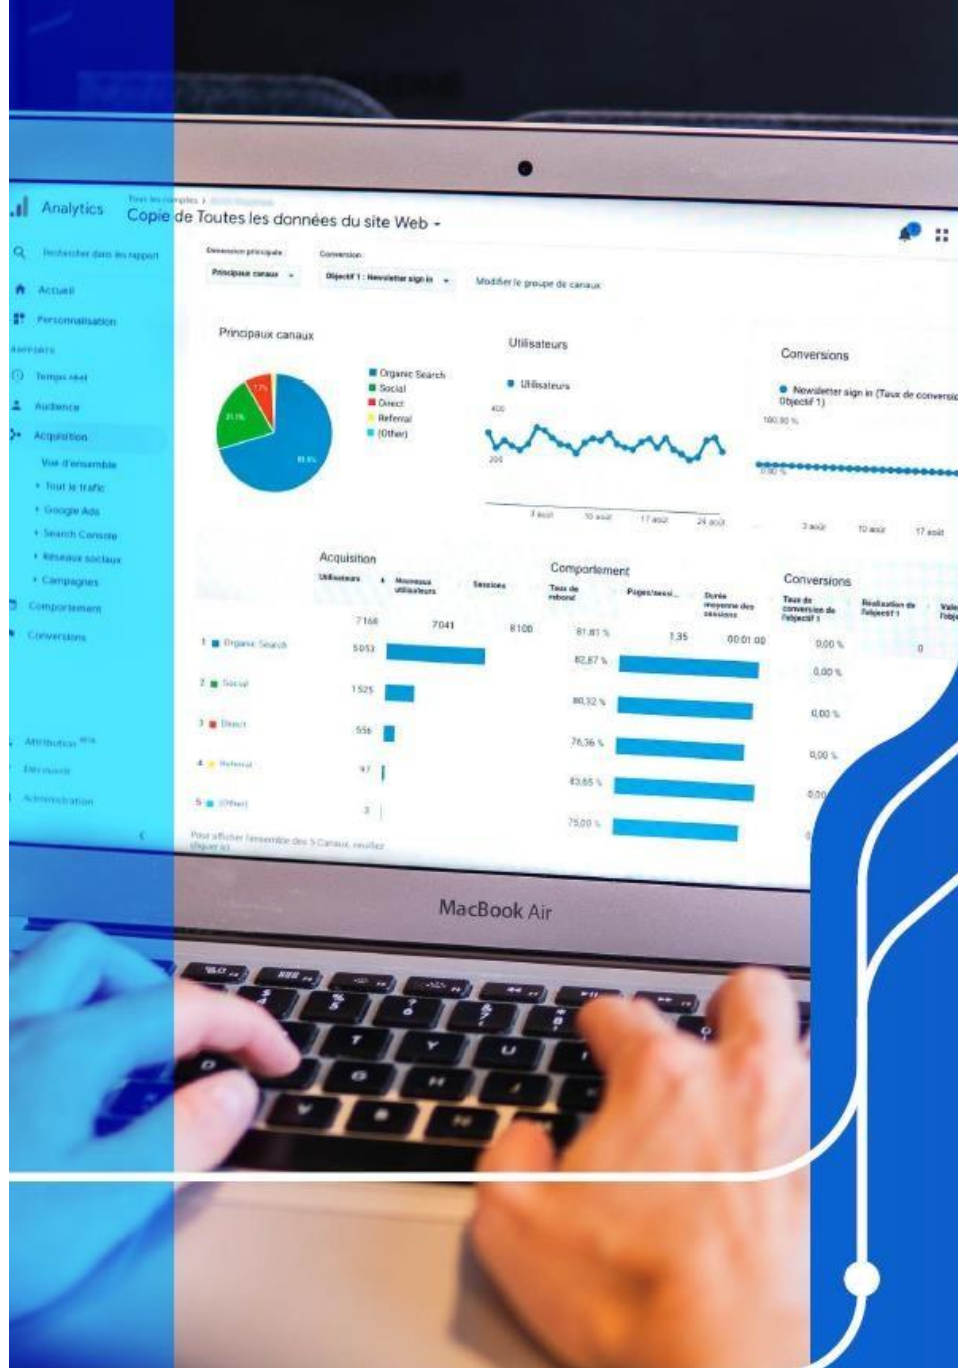

The SISOFT logo, featuring the word "SISOFT" in a white, bold, sans-serif font. The letter "O" is stylized with a white circular graphic element around it. The logo is positioned at the bottom of a vertical image showing a hand holding a smartphone displaying a medical interface with various data points and a stethoscope.

# Business Intelligence

Business Intelligence (BI) refers to the tools, technologies, applications and practices used to collect, integrate, analyze, and present an organization's raw data in order to create insightful and actionable business information.

Business intelligence (BI) simplifies information discovery and analysis, making it possible for decision-makers at all levels of an organization to have easy access, understand, analyze, collaborate, and act on information, anytime and anywhere.
