Dear Parent,

Enclosed you will find health forms for the 2025-2026 school year. Please fill out each form completely and return to the school office. **We realize that doctor appointments may not be scheduled soon, but please return the health forms as soon as possible.**

The school nurse needs to have all required health records completed and returned! These records will be kept confidential and filed in the nurses locked filing cabinet.

**Please note that immunization records must be turned in no later than the 5th day of the school year.

If you have any questions for the school nurse, she may be contacted at:
