

Celebrate Earth Day throughout April by participating in our *free* Lake Stormwater Management and Stewardship webinars. In this 3-part series, you will learn strategies to help keep our lakes and streams clean from pollution. Each workshop will be held from 4:00-5:00 p.m. on Friday afternoons. To register, visit:

<https://www.eventbrite.com/e/lake-stormwater-management-and-stewardship-webinar-series-tickets-146622595129>

Webinar Topics include:

- **4/16/21: Preventing Microplastic Pollution**

Led by the AmeriCorps NJ Watershed Ambassador for the Walkkill River Watershed

- **4/23/21: Managing Stormwater with Rain Gardens**

Led by the SCMUA-Walkkill River Watershed Management Group

- **4/30/21: Septic System Maintenance Training**

Led by ANJEC (Association of New Jersey Environmental Commissions)

This webinar series is being organized by the SCMUA-Walkkill River Watershed Management Group in partnership with the Greater Culver Lake Watershed Conservation Foundation.
