single, black aluminium lever with LED
brushed dark grey

VIRTUOSO AND CLASSY

In a way, controlling Chopin feels a bit like **playing the piano**. Push the levers up or down to dim the lights, draw the curtains and let your favourite music enter the room.

Composed comfort

Chopin comes with 1 or 2 levers in 3 different finishes: black aluminium, chromed or gold plated, **creating a sophisticated and timeless appearance.**

An internal temperature sensor discretely reports the room temperature to the home automation system.

Combine Chopin with our sockets in a 2- or 3-gang configuration in the same luxury finishes, allowing **a consistent and minimalist look.**

Chopin natively integrates with KNX, Crestron® and Lutron® systems with an LED light indicating its status. Moreover, our switch is also available with a dry contact closure.
