## WHEN TURNED OFF, DECOVUE QUICKLY BLENDS IN

Once it is turned off, it quickly blends into your environment with precision. The sublime mirror design used in its front panel makes it quite classy.

Decovue shows crisp, clear pictures when it is turned on, but it upgrades into a mirror in a seamless fashion once it is put off. It is time to bid goodbye to the conventional TV in your space that does not evoke excellence.

# MIRROR FEEDS

Mirror Feeds is a free smart application for your DecoVue. Navigate your way into the business world, see what's trending in the entertainment industry, be updated with the latest discoveries about health and science or see what's latest in technology. You can also monitor stocks, currencies, check the weather in your current location or change the lay-out of your feeds.

## Choose Frame Options

Decovue has a wide range of dynamic frames that flow from modern to classic impressions. The spread of iconic designer frames to superb wooden frames makes this easy to align to your needs.

VESA Bracket

Hang on the Wall

Lean on the Wall

Desk Mount

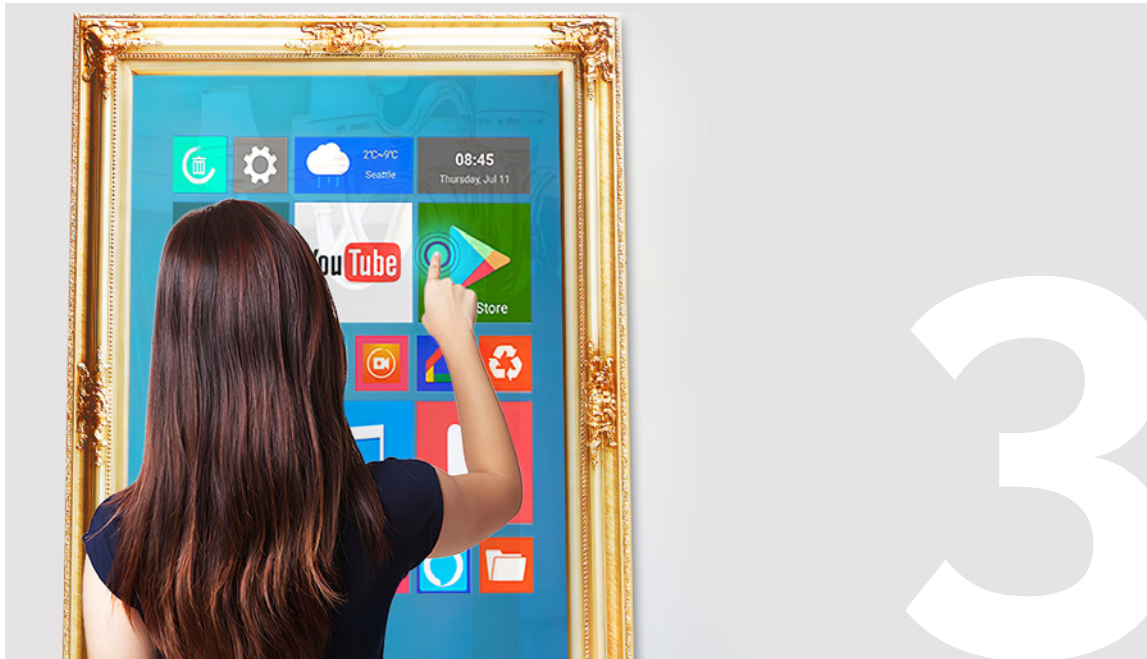

Invisible Power Cable

## Choose Mounting Options

DecoVue has a lot of mounting options to choose from. It can be hung or leaned on the wall or be attached through VESA Bracket on your wall or desk mount.

DecoVue can also be attached through a 20'6 meter "invisible" power cable. Simply stick the super thin cable on the wall and paint it. You can place under wall paper, carpet or wooden flooring; depending on your space. Because all Decora TV's are powered with 24 volt, this is completely safe.

## Smart Touch

Controlling your mirror has become even easier. DecoVue offers an option to add a smart touch screen for all TV sizes that allows you to control the applications aside from the remote control.

## Android Box

DecoVue comes optional with a 4K Ultra HD Android Box.
