Architettura Sonora

Architects of Sound

At Architettura Sonora we shape technology to merge sound and design in their most beautiful synergy. Born in 2009 as a division of one of the top professional loudspeakers manufacturers, B&C Speakers, Architettura Sonora drew together a creative team of acousticians, engineers, architects and landscape designers sharing the same enthusiastic vision to rethink the way acoustic speakers had been conceived and created until then.

Handmade in Italy

AS offers endless design possibilities through a wide selection of materials and finishes, providing a truly bespoke solution for the most diverse audio requirements and environments. Materiality in AS Speakers extends far beyond physical matter, broadly encompassing the emotional field to a tactile experience of sound and space, features rarely associated with speaker design. From nightclubs, to hotels, to premium residences around the world, AS speakers are chosen for their reliability, consistency and most of all for their outstanding sound quality.

TruAudio

**ONE PARTNER,

-  CUSTOM LENGTH SOUNDBARS
-  FORGE RACKS
-  SELECT SERIES

The Sound of Innovation

TruAudio definitely breaks the mold when it comes to speaker manufacturing. Constantly on the cutting edge of speaker technology and innovation, we strive to raise the bar when it comes to speaker design. TruAudio speakers are constructed with materials proven to perform. This includes the right mixture of woven carbon fiber, titanium, aluminum and polypropylene. Every crossover is built to match each driver and then tested to make sure it delivers to pure perfection

CUSTOM LENGTH SOUNDBARS

Invisible Speaker Company

The world's market leader in the design and manufacture of invisible loudspeakers, Amina is a UK based company who has been filling spaces with acoustic ambiance for the last 20 years. Regularly used in residential and commercial spaces ranging from beautiful family homes, modern and historic properties to exclusive hotels, they produce a non directional, open sound that fills beautiful spaces.

Amina Sound

Audio for Smart Spaces

With cavity walls and ceilings being a staple of the construction industry globally, Edge Series loudspeakers provide a high performance solution in a lightweight and easy to install package where cavity walls and ceilings have been used.

Basalte

Design for the Intelligent Home

Handmade in Belgium, Basalte believes in keeping things simple, intuitive and elegant, both in its form and function. All their products are meticulously designed and handcrafted in-house and have won more than 35 international design awards.

DESEO

Deseo is a design thermostat and room controller to intuitively control your home climate, lighting and even music at the lightest touch. In standby, Deseo shows the current temperature and time. Touch the upper and lower surface to raise or lower your temperature set point. Touch left and right to change fan speed and mode. With multitouch, you can quickly turn the lights on and off, using a welcome and goodbye scene.

ELLIE

Ellie is an elegant touch-sensitive panel for Basalte Home. It is your go-to point to control lights, climate, music and more around the house. Access your entire home, see everything at a glance and keep detailed functions only a tap away. Thanks to its slim design and premium finish, Ellie blends in beautifully with any interior.

CHOPIN

Virtuoso and Classy, controlling Chopin feels a bit like playing the piano. Push the levers up or down to dim the lights, draw the curtains and let your favourite music enter the room.

SENTIDO

Sentido is a multifunctional design switch to intuitively control lighting and more at a touch. Touching more than one surface at the same time turns on and off all the lights in a room using a general scene making it intuitive and user friendly.

FIBONACCI

With its exceptional design, interchangeable text labels and proximity sensor, Fibonacci steps up the game of home automation. The touch-sensitive surface creates an effortless way of control and an unseen user experience.

MIRO

Nothing more versatile than our Miro remote to control all your devices at home. It comes in a slim and ergonomic design in timeless brushed black. The laser engraved buttons and a touch sensitive screen bring you right where you need to be. It supports wireless charging and connects to Basalte's core server allowing this one remote to simply control all functions in your home.

AALTO

Aalto is a unique collection of high-performance speakers for exclusive homes. It combines innovative, architectural build with premium finishings and studio-quality sound. These are powerful active speakers, seamlessly matched to the integrated 200W amplifier. Precision-machined out of high-quality metals for acoustic perfection, Aalto also comes with integrated bluetooth to keep you and your loved ones connected

Universal Remote Control

The Ultimate Smart Home

Introducing the next generation of premium whole-house automation and control.

Made in USA, Total Control 2.0 brings your house to life with leading-edge technology and unsurpassed performance for a truly personalised smart home experience.
