**Open your world and
secure your home**

This biometric lock combines brilliant technology with a proven mechanical structure. With its aesthetic design and cutting-edge features, it qualifies itself as one of the most essential building items for the contemporary home.

YDM4109

Premium Fingerprint Digital Door Lock with anti-panic

The world's favourite lock

One-touch Fingerprint Verification Method (Easy Scan)

Easy Scan technology has been applied to conveniently read a fingerprint in one shot without the need to open or close the cover to enter a fingerprint.

Voice Guide

The voice guide lets you know the operation status and how to set each feature and mode for easier and more convenient use.

Scrambling code

You can add meaningless numbers prior to or after the code when there is a chance of exposing your code to others.

Alarm (Break-in / Damage)

80dB alarm goes off if anyone attempts to damage the lock or force the door open.

Anti-panic egress

For convenience and in case of emergency, the door is automatically unlocked whenever the inner lever handle is used.

Security / Normal mode

For a multi-user environment, YDM4109 can be turned to Security(Master) mode so that the master can register and delete each user while Normal mode controls all the users at one time.

Smart Touchpad

To prevent the password from being exposed due to residual fingerprints after opening a door, a new technology has been adopted to complete the door opening process by touching the keypad with your palm after entering the password.

Safe handle

The button on the handle must be depressed before the lever will operate. This is a child safety feature as small children will have difficulty opening the door.

Operation status notification

Whenever any operation is made, the keypad informs you what has happened through different alignment of the numbers.

Low battery and emergency power

It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply power to the lock with a standard 9V battery.

YDM4109

Front Body 28.5(D)X68.6(W)X320.7(H) mm
Back Body 37(D)X72.8(W)X306.6(H) mm
