

A freight train is shown from a low angle, moving along tracks. The train consists of several large, cylindrical tank cars. The tracks are made of gravel and steel rails. In the background, there are some trees and a clear blue sky. Overlaid on the image are large, stylized numbers: a yellow '2' on the left, a red '0' in the center, and a red '6' on the right. The year '2026' is written in large white digits across the middle of the image.

Period 7	20/09/2026	17/10/2026
Period 8	18/10/2026	14/11/2026
Period 9	15/11/2026	12/12/2026
Period 10	13/12/2026	09/01/2027
Period 11	10/01/2027	06/02/2027
Period 12	07/02/2027	06/03/2027
Period 13	07/03/2027	31/03/2027

ASAVRAIL carries out Consultancy, Design, Coordination and Assurance (Independent Checking and CRE-D), Engineering Management, Project Management and Development Training for Railway Systems and Power Engineering (E&P/D&P/M&E).

We provide specialist support for the delivery of railway electrical power designs at a Chartered Principal Engineer competency level for projects in the UK, Ireland and Overseas.

We have award winning technical expertise in Signalling Power (E&P) and the Digital Railway.

ASAVRAIL additionally offers technical assurance, competency management, technical collaborative and innovative CPD technical workshops with global experts and suppliers, professional registration support, application of Railway Standards/Guidance and mentorship including STEM.
