HANDRAILS & GRATING

STEEL GRATING AUSTRALIA fabricates industry standard handrail ball stanchions and industrial floor grating. We can customise the product to suit your requirements.

All of our products are manufactured to Australian Standards and Our well-equipped 3000 sqm facility ensures that all projects are delivered in a short turnaround time. Steel Grating Australia has cemented relationships with select galvanizers to ensure an overnight processing. Our inhouse painting facilities ensure only 2 day lead time for all single coat applications.

MACHINE GUARDING

STEEL GRATING AUSTRALIA specializes in fabricating custom machine guards for a variety of machines, ranging in size and function. No matter the industry, we can create a custom machine guard of any size ensuring the machine is brought up to OHSA safety standards. Our goal is to provide our customers with a product that is unmatched in quality, high functioning, reliable, and meets all safety requirements. Contact Steel Grating Australia today for more information on how you can improve the safety within your workplace

LIGHT FABRICATION

STEEL GRATING AUSTRALIA are specialists in light steel fabrication in Western Australia with a skilled team ready to meet customer specifications to deliver all projects.

Our advanced steel fabrication production facility of 3000sqm includes cnc beam/drill line and plate cutting machines to ensure that we have the capacity and precision to undertake a wide range of fabricated components and projects including light steel fabrication and structural steel fabrication.

BLASTING & PAINTING

STEEL GRATING AUSTRALIA has blast and paint facility specialising in the delivery of customised abrasive blasting processes, industrial spray painting and protective metal coating solutions. With our 3000 sqm facility, 3 x 10t gantry cranes, 5m x 20m grit room and rotor blaster we can ensure your project is completed on time, within budget and to the highest possible standards.
