

KND Visiting Consent Form

Dear Parents:

As you know we own both A Solid Foundation Learning Center AND The Kids Next Door Youth Center. While ASF is a licensed childcare facility with DCFS of Illinois, KND is our school aged program, and that program has licensed exempt status with DCFS Illinois. Our school aged building sits empty during times when school is in session, or when that group of children are on a field trip. On occasion when the children at KND are not in attendance, we like to use this space for special opportunities. We have used this space for special holiday treats, an indoor area for getting out energy when the week has been rainy, and even made it a writer's theater to present a play!

In accordance with DCFS licensing standards 407.250 we need parent consent with written permission for visits, trips, or excursions off the premises and the transportation used for these visits, trips, or excursions. By signing below, you are giving consent for A Solid Foundation Learning Center to travel with your child to The Kids Next Door Youth Center by walking to the facility. This will only occur when the school aged children are not present in the building.

This consent will cover our excursions to KND from 2/1/2023 to 2/1/2024
