

# Culture, Customs and Celebrating Holidays Questionnaire

Dear Families,

Your answers to the following questions will guide the development of an inclusive, age-appropriate approach to celebrating holidays. Here at ASF we believe in exposing children to many different experiences, and we do not teach anything as a belief system. Knowledge is powerful, and that is why we expose children to various cultures, customs, and beliefs. The goal at **A SOLID FOUNDATION LEARNING CENTER** is to host celebrations and plan activities that meet the needs of all children and families in this setting. We are always looking for ways for our families to join us in our classrooms and family customs and traditions is a great way to do that! **Thank you for taking the time to share this information.**

1. Which special occasions and holidays do you celebrate in your family?
2. How do you celebrate special occasions and holidays?
3. Do you have any customs or traditions that you would like to share with our learning center? If so please explain.
4. Are there are holidays or customs that you would like YOUR child to learn more about while they are in our learning center?
