Why Buyers Choose Monarch Stone

Direct Source • Managed Supply Chain • Distinctive Afghan Marble & Onyx

Monarch Stone LLC is a Utah-based direct importer and wholesale distributor specializing in premium Afghan marble and onyx. Through direct quarry and processing relationships, we provide qualified buyers with a coordinated supply channel from source to U.S. delivery.

Direct quarry access supports closer source control and long-term supply planning.

Buyers Choose Monarch Stone

Direct quarry and processing relationships support source control, commercial consistency, and long-term supply planning.

- **Direct Quarry Sourcing.** Direct source relationships reduce unnecessary intermediaries and improve visibility into material selection and supply.
- **Managed Supply Chain.** We coordinate sourcing, selection, processing, packing, international transportation, import, and U.S. delivery.
- **Distinctive Afghan Marble & Onyx.** Rich color variation, dramatic veining, translucence, movement, and natural character.
- **Custom Dimensions & Project Production.** We can support custom dimensions and project-specific production based on specifications, quantities, finishes, material availability, and production capability.
- **Wholesale & Project Focus.** Built for distributors, fabricators, contractors, developers, architects, hospitality teams, and other qualified commercial buyers.
- **Utah & California Market Development.** South Salt Lake serves as the current U.S. base, with a future California distribution/pickup location planned.

Our Commercial Purpose

We are building long-term supply relationships for recurring wholesale demand, project-based orders, direct-container purchases, and qualified market or territory opportunities.

Materials & Project Production

Our program includes Afghan marble and onyx in slab and cut-to-size formats, with custom dimensions and project-specific production available for qualified orders.

Distinctive natural movement and color, ideal for countertops, vanities, feature walls, architectural surfaces, commercial projects, and luxury residential applications.

Onyx Slabs | Available in 2 cm (Approx. 3/4")

Translucent beauty with dramatic natural veining, ideal for feature walls, reception areas, hospitality spaces, bars, backlit installations, and other high-end architectural applications.

Cut-to-Size Marble | Available in 1.5 cm (Approx. 5/8") and 2 cm (Approx. 3/4")

Marble Slabs	2 cm (Approx. ¾") and 3 cm (Approx. 1 3/16") Countertops, vanities, feature walls, architectural surfaces, commercial projects, hospitality, and luxury residential applications.
Onyx Slabs	2 cm (Approx. ¾") Feature walls, reception areas, hospitality spaces, bars, backlit installations, and other high-end architectural applications.
Cut-to-Size Marble	Standard and project-specific dimensions Wall cladding, architectural panels, decorative applications, feature walls, flooring, and commercial or residential interiors.
Custom Production	Based on approved project requirements Dimensions, thickness, finish, quantity, packing, and production can be coordinated around project specifications and material capability.

Specification & Natural Variation

Natural stone varies by block and lot. Final quotations and purchase agreements identify the applicable material, dimensions, thickness, finish, quantity, production requirements, commercial terms, and delivery basis.

Wholesale Purchasing & Project Supply

Monarch Stone is structured primarily for business-to-business wholesale and project supply. Buyers may source U.S. inventory, direct-container quantities, custom production, project volumes, or establish longer-term purchasing relationships.

U.S. Inventory Pickup	Purchase qualifying quantities or project-based volumes from South Salt Lake inventory, subject to availability and minimum wholesale requirements.
Direct Container Purchase	Plan full-container quantities around material selection, production, packing, and commercial demand.
Project-Specific Production	Coordinate custom dimensions, finishes, quantities, and packing around approved project requirements and production feasibility.
Advance Purchase Agreement	Reserve upcoming production or establish purchasing terms in advance, subject to specifications, inspection, availability, and mutually agreed terms.
Territory / Buyer Exclusivity	Qualified companies may be considered for market, territory, or product exclusivity when supported by defined purchasing commitments and minimum volumes.
Project & Volume Supply	Contractors, developers, fabricators, distributors, architects, and project teams may request project-specific quantities and volume-based pricing.

Ideal Wholesale & Project Partners

Natural-stone fabricators and countertop shops • Marble, onyx, and tile distributors • Commercial tile and stone installers • General contractors • Homebuilders and developers • Architects and interior designers • Hospitality and luxury-retail project teams • Building-material suppliers

California Distribution Location

A California distribution/pickup location remains planned. Details will be announced as development progresses.

Supply, Quality & Commercial Approach

DIRECT-SOURCE PRICING

Direct quarry and processing relationships allow Monarch Stone LLC to offer highly competitive wholesale pricing for commercial and container-volume purchases.

Our objective is to give distributors and importers an additional source of distinctive marble and onyx, with pricing structured to support attractive resale margins.

Supply & Quality Approach

- **Controlled selection.** Material is sourced through direct quarry and processing relationships with attention to appearance, processing, and commercial suitability.
- **Lot-based evaluation.** Stone is evaluated as a commercial lot, recognizing that natural variation is inherent in natural stone.
- **Clear specifications.** Quotes and purchase agreements identify material, format, quantity, production requirements, commercial terms, and delivery basis.
- **Scalable sourcing.** Direct source access supports repeat, project-volume, and full-container supply programs.
- **Coordinated logistics.** Monarch Stone manages the supply chain from source through processing, packing, international transportation, import, and U.S. delivery.
- **Project flexibility.** Custom dimensions and project-specific production can be evaluated against drawings, schedules, quantities, finishes, and material availability.

Project & Wholesale Inquiries

Buyers, contractors, developers, architects, fabricators, distributors, and procurement teams are invited to discuss upcoming projects, wholesale purchasing needs, custom production, direct-container orders, and longer-term supply opportunities.
