FEEDING DIRECTIONS:

Feed RANCHER'S CHOICE® 30% Protein Cooked Molasses Tub free-choice to cattle on pasture or roughage rations. Make sure animals have adequate pasture or roughage available and are not starved for salt or minerals. Feed continuously. Recommended consumption of RANCHER'S CHOICE® 30% Protein Cooked Molasses Tub is 0.75 to 1.00 pounds per head per day. Management of the number and location of the tubs by the producer may be required to achieve target intakes. Increase the number of tubs and move tubs closer to water or loang areas to increase intake. Decrease the number of tubs or move farther from water or loang areas to decrease intake. Provide at least one tub for every 15 to 20 animals. Provide free access to fresh, clean water at all times.

CAUTION:

Contains copper. Do not feed to sheep. Feeding selenium at levels in excess of 0.3 ppm in the total diet is prohibited. This feed contains a source of non-protein nitrogen. The equivalent protein supplied by non-protein nitrogen should not exceed 1/3 of the crude protein of the total ration. Use only as directed.
