

VITAFERM CONSERVE® PROTEIN TUB

SIZES AVAILABLE

Product #20190
200 lb. tub

The VitaFerm Conserve® Protein Tub is an economical vitamin and mineral supplement for beef cattle that supports the health and condition of the whole herd. Includes the Amaferm® advantage to optimize nutrient digestion and absorption while the vitamin and mineral pack preserves cattle performance and contains protein for when forage quality is low.

AMAFERM® ADVANTAGE

Amaferm® is a precision prebiotic designed to enhance digestibility by amplifying nutrient supply for maximum performance. It is research-proven to increase the energy available to the animal resulting in more performance.

KEY SELLING POINTS

- Amaferm, a precision-based prebiotic that impacts intake, feed digestibility and nutrient absorption for improved health and performance.
- Contains a complete vitamin and mineral package to economically support nutritional needs of cattle grazing pasture.
- Contains 20% natural protein.

FEEDING DIRECTIONS

Feed to beef cattle using the following guidelines:

1. Consumption should be approximately 1 lb. per head, per day.
2. Provide one 200 lb. tub for every 20-30 head.
3. Provide plenty of good quality forage at all times.
4. Free-choice salt should be provided.
5. Provide a fresh, clean water supply at all times.
6. Consumption can vary with weather and feed conditions.
7. If over-consumed, move tub farther from water or loafing area

The above feeding directions are guidelines. Use good management practices adapted to varying conditions.
