TRAILHAWK 10

The Trailhawk 10 is designed for action and performance. The Trailhawk 10 is sized for a more experienced youth rider aged 10 and up. While still fitted with our top notch safety features such as the throttle limiter and remote engine shut off, the rugged and well-designed Trailhawk 10 also features front and rear disk brakes that provide consistent and easy stopping power. The brake levers designed specifically for smaller hands.

The convenience of the electric start engine and automatic transmission that also features reverse, provides action packed, go anywhere capabilities for young riders. From performance to style, it's no wonder the Trailhawk 10 has become one of our most popular and sought after off road vehicles.

TRAILHAWK 10

FEATURES

WIRELESS ENGINE SHUT OFF

The Trailhawk 10 comes with a unique Wireless Engine Shut Off key fob, giving the supervising adult an extra level of control. A simple push of the shut off button will turn the engine off.

THROTTLE LIMITER

If your young rider is just learning about throttle control, the Trailhawk 10's throttle limiter will let you control top speed to fit his or her ability. When they demonstrate appropriate skill level, you can increase speed at your discretion.

PROPER ERGONOMICS

The Trailhawk 10 is specifically engineered at the right size for your young riders. The chassis layout is designed to fit the average 10 year-old child.

DISK BRAKES

The Trailhawk 10 uses a disc brake system on the front & rear axle to provide consistent stopping power. The hydraulic brake has a lightweight pull effort and an appropriately sized lever that your young rider can operate easily and confidently.

GREASE ZERKS

Proper maintenance isn't just for adult-sized units. The Trailhawk 10 has grease zerks in key high wear areas. Easy access points let you teach your young rider to do his or her own maintenance right from the beginning.

WHEELS

The Trailhawk 10 has 8-inch wheels that deliver excellent traction and performance across a wide variety of terrain, while also enhancing ride quality.

ELECTRIC START ENGINE

The air-cooled, SOHC four stroke engine is built tough to deliver fun for years. The smooth-running power plant features convenient electric start.

LED RUNNING LIGHTS

Style and safety go hand in hand on the Trailhawk 10. Cool LED front running lights help keep the Trailhawk 10 visible when your young rider is adventuring around your property. The rear brake lights are also high visibility LEDs.

GEAR INDICATOR

The Trailhawk 10 has an easy-to-shift transmission for forward, neutral and reverse. It uses a no-hassle fully automatic drive for simplicity. The shift lever is conveniently located on the left side of the unit. An illuminated gear indicator on the handlebars shows what gear it's in.
