BOAMBEE ANGUS

Boambee Angus is family owned and operated by the Duncan family, located along the Williams River in the lower Hunter Valley of NSW. We have been breeding commercial Angus cattle for over 30 years and established our stud herd in 2017 with a large run of females from Witherswood Angus 2018 dispersal sale forming our foundation herd. We have since introduced genetics including from Texas, Ben Nevis, Millah Murrah, Knowla and Premier Angus studs.

Today we operate on 1620 hectares across 4 properties, 'Sinclair's Point', 'Balickera', 'Rosehill' and 'Oaklands'. Our herd consists of around 230 stud and 450 commercial females. Each year we pasture improve around 250 hectares of winter pastures for our cow & calf operation. This also allows us to finish steers and heifers on high performing pastures.

Pennie Lieb, Jamie Grosser, Margo Duncan, Tim Norrie, Aaron Lieb

GENETICS

We are proud to present this year's sale team. A line-up that reflects everything we admire about the Angus breed.

Despite the challenges of recent months, including significant flooding with one of the largest events occurring in May, our cattle have shown tremendous resilience. We love the rain, but we've certainly had more than our fair share this year. Through it all, these bulls and females have continued to thrive, demonstrating the traits we value most: doability, structural soundness, and that signature Angus toughness.

This year's draft showcases genetics from proven sires we've used widely in our herd, as well as exciting new sires bringing fresh qualities such as longevity, calving ease, carcass strength, and softness. Pedigree depth remains a key focus, with a strong emphasis on productive female lines that have well and truly delivered. We're particularly proud to offer ET sons from some of our elite cows, including Texas Undine M508 and Witherswood Kerry P0113, along with progeny from first-calvers making their catalogue debut.

We believe this year's offering is one of our most complete to date — a team that embodies what we strive to breed and highlights the very best traits of the Angus breed.

Texas Iceman R725 makes another strong showing this year with a standout group of sons. His progeny are consistent in type, with strong sire appeal, great carcass shape, softness, doability, and an impressive data set. He continues to breed with exceptional reliability and balance.

Lawsons Rocky R4010 is making his debut. Rockys' sons bring serious power and performance to the table. With excellent carcass data, these bulls also offer extra length, along with great skin and hair type — a very attractive all round package.

Dunoon Recharge R102 is another exciting first time feature. Recharge sons combine excellent calving ease and low birth weights with strong growth. These bulls are very easy-doing — soft as butter — and a pleasure to have in the paddock.

We purchased Millah Murrah Stormtrooper S69 for \$70,000 at the 2022 Millah Murrah Bull Sale. His first sons are now available, offering moderate frame, depth, softness and growth. He has bred true to type and we're excited to share his first drop.

Sterling Pacific 904 is a highly respected sire across the Angus breed, and his sons are eye-catching and consistent. Several are ET calves from Texas Undine M508, combining elite maternal and paternal genetics. These bulls are definitely worth a close look.

This year also features sons from our own homebred bulls — Boambee Sir Spice S112 and Boambee Surething S16. Both sires are producing soft, well-fleshed progeny with excellent temperament — ideal additions to any breeding program.

We're also proud to introduce progeny from three powerful U.S. sires: Wilks Regiment 9035, LVVF Tanker 14, and Pine View Vezina. These bulls offer valuable outcross genetics with loads of muscle, performance and presence.

We're genuinely excited about the depth, quality, and potential of this year's sale team. Whether you're looking for proven performers or new genetics to lift your herd, we believe there's something in this line-up for every progressive Angus operation.

SALE INFORMATION

LOCATION

"Sinclair's Point"

248 East Seaham Rd, East Seaham

From Maitland

Travel along Clarence Town Rd, turn right on to Dixon St Seaham, then turn left onto East Seaham Road.

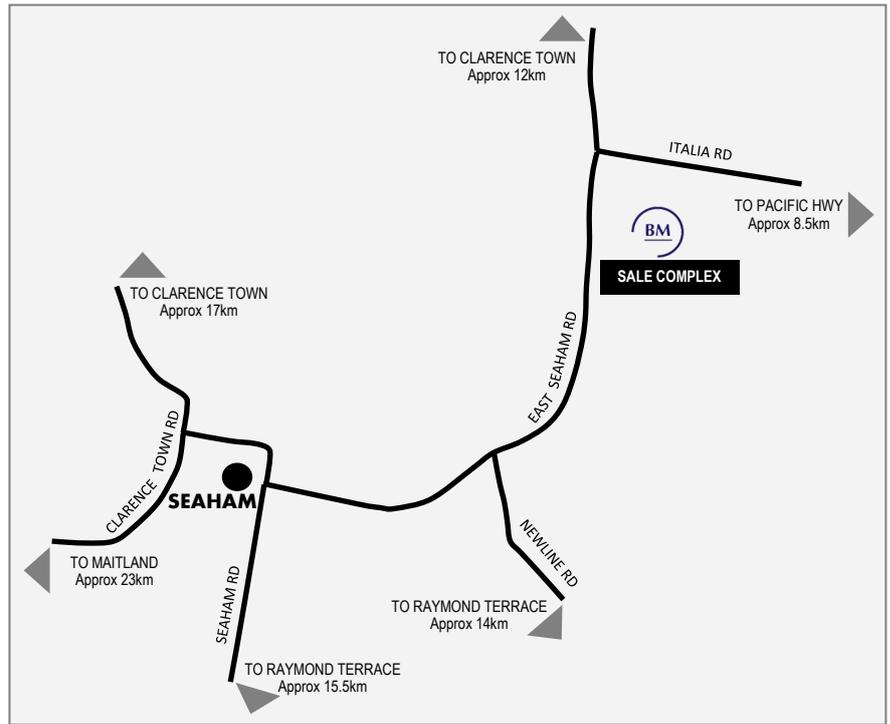

From Raymond Terrace

Option 1: travel along Newline Rd to the T intersection, turn right onto East Seaham Road.

Option 2: travel along Seaham Rd, turn right onto East Seaham Road.

From Pacific Highway

Travel down Italia Road to the T intersection, turn left onto East Seaham Road.

INSPECTIONS

Pre-sale inspection of the animals are available by appointment. Please call Jamie 0429 266 881 or Greg Lidbury, Bowe & Lidbury Stock and Station Agents 0419 498 561 to arrange a time.

Sale bulls and females will be penned on sale day by 10am. **Children must not enter the pens.**

REBATE

Vendor will offer 2% rebate to outside agents introducing buyers in writing 24 hours prior to the sale and settling on their behalf within seven days.

REGISTRATIONS

The selling agent will be using the sale bid card system. Allow time to register prior to the sale and nominate your PIC Number.

GST

All lots sold will be GST exclusive at the fall of the hammer. 10% will be added to the invoice.

ADDITIONAL INFORMATION

A supplementary sheet will be available on the day.

CATERING

Refreshments will be available on the day, along with a BBQ lunch with all proceeds going to the Seaham Rural Fire Service.

INSURANCE

It is recommended that you consider insuring your purchases, and representatives from Elders Insurance Hunter Valley will be in attendance on the day. There is no vendor insurance provided.

BUYERS INSTRUCTIONS

Please complete the buyers slip available on the day from Bowe & Lidbury personnel. No verbal instructions will be accepted.

SALE INFORMATION

DELIVERY

The vendor will provide delivery of all Stud lots within the Hunter Valley and Manning regions free of charge. For delivery of Stud lots to other areas, please contact the vendor to discuss options and packages. Delivery of commercial Angus heifers will be the responsibility of the purchaser, however please liaise with us for assistance. No cattle will be leaving the property on sale day, however delivery will be arranged as soon as possible following the sale.

TAKING DELIVERY

When taking delivery of your new sires, it is extremely important to realise our bulls have always run in mobs with their own age since they were weaned. If you are a single bull buyer, it will be wise to have some other animals in the yards upon arrival of your new bull, e.g. steers or pregnant cows. Our bulls have been handled with quad bikes and dogs, whilst spending a lot of time with them on foot also. When moving your new bull, do so in company with other cattle and get him used to your handling methods.

HERD HEALTH

All bulls are fully vaccinated for:

- √ 7 in 1
- √ Pestivirus
- √ Vibrio
- √ IBR
- √ BEF (3 day sickness)

Immune ready guidelines allow buyers to access the vaccination status of cattle before purchase and informs buyers of required future treatments and actions. By purchasing Immune Ready cattle, buyers offset many of the inherent diseases that come with introducing new cattle on farm.

Immune Ready advises the buyer that a National Cattle Health Declaration will be provided to verify the treatments given. Buyers should consult with their local veterinarian for a herd health plan best suited to their locality and enterprise.

They will all require boosters in Autumn 2026.

All bulls have tested free of Pestivirus. We have a biosecurity plan implemented and are JBAS 6 accredited. A National Cattle Health Declaration will be supplied to all purchasers.

Brendan Coonan of Northern Artificial Breeders will conduct crush side semen testing.

Nikki Henderson of Henderson Livestock works closely with us to ensure the complete nutritional needs of our herd are met.

Diamond Mobile Veterinary Services will subject the bulls to a breeding soundness examination. We guarantee our product. If a bull should prove infertile and/or breaks down due to reasons other than injury or negligence, we will provide you with a satisfactory replacement or issue you with a credit equal to the purchase price, minus the salvage value. Request for refund or replacement must be lodged with the vendor or agent within 12 months from the sale date and accompanied by a vet certificate. We wish you all the success with your bull purchases. If you have any concerns, please contact us.

ANGUS AUSTRALIA REGISTRATION TRANSFER

Upon request we will arrange transfer of Ownership with Angus Australia.

VISITOR HEALTH & SAFETY

While our animals have all been screened for temperament and are quiet to handle, there are always risks when handling and moving around cattle.

Visitors enter the pens at their own risk. Please use common sense and be alert at all times when in the pens. We do not expect our bulls to be aggressive, but come sale day the animals are placed under pressures they are not normally exposed to. Do not crowd the animals or loiter inside the pens. Don't enter the pens unnecessarily.

PHOTOGRAPHY & VIDEOGRAPHY

All lot photos and videos have been captured by Ruby Canning - Mavstar Photography.

***VISITORS ENTER THE PENS AT THEIR OWN RISK
CHILDREN MUST NOT ENTER THE PENS***

One of our first Vezina daughters and she sure doesn't disappoint. Her extra length and volume, combined with her presence, is something to be admired. V44 is going to grow into an awesome cow that has plenty of data to go with her.

DISCLAIMER & PRIVACY INFORMATION

DISCLAIMER

All reasonable care has been taken by Boambee Angus to ensure that the information provided in this catalogue is correct at the time of publication, however, neither Boambee Angus nor the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue, and do not assume any responsibility for the use of, or interpretation of, the information included in this catalogue.

You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information. Any information provided after the printing of this catalogue will take precedence to that printed in the catalogue.

Please be aware that any person entering on the property for any purpose, including attendance at auction sales and open days, do so at their own risk, and the owners, employees and representatives of Boambee Angus accept no liability for any personal injury or death, suffered by you. Nor is any liability accepted for the theft, loss or damage to any personal property caused by any other persons, while on our property. Although such occurrences are rare, any persons attending the Boambee Angus sale do so at their own risk.

PARENT VERIFICATION

Boambee Angus parent verify every animal in the herd. All animals have been tested to verify the sire and dam. The parent verification suffix that is displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia. Please note we are awaiting final confirmation on some lots within the catalogue. The outcomes will be provided in the sale day supplementary sheet.

- PV both parents have been verified by DNA
- SV the sire has been verified by DNA
- DV the dam has been verified by DNA
- # DNA verification has not yet been conducted
- E DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively

PRIVACY

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia, and the buyer consents to the collection and disclosure of that information to Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed to Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents.....

.....

from member(name) do not consent to Angus Australia using my name, address and phone number for the purpose of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Name: Signature:

Date:

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale, NSW 2350.

.....

If you have any questions or queries regarding any of the above, please contact Angus Australia on (02) 6773 4600 or email office@angusaustralia.com.au
