

Autumn 2023

BOAMBEE

A N G U S

Mixed Seasons

2022 will certainly be a year to remember for the sheer volume of water that the Eastern States of the country experienced. We are now finally getting a break in the Lower Hunter after a very dry end to Spring and Summer. We hope that good widespread rain develops soon for those who missed out, especially in the Upper Hunter and further West.

July 2022

We have managed to finally get sowing under way, with lots of oats and ryegrass mixes going in the ground. The farms are all looking pretty good now with many of our Autumn cows with calf at foot.

We are very excited for the year ahead, with the announcement to come in the next few months for the date of our first on property bull sale in 2024.

We look forward to the rest of the year and hope we can assist in your genetic choices.

Genetics

With plenty of new calves on the ground and some very exciting weaners that have just come off mum, we could not be happier with the new genetics in our herd. Texas Iceman R725 has bred very well for Boambee with consistency and true to type progeny. Al sires such as Sterling Pacific, Exar Pillar and Musgrave Avenger have also got some good runs on the board.

The excitement doesn't end there. We will see progeny from our new walking sires Millah Murrah Stormtrooper S69 and Karoo P195 Junior R241 hit the ground in early Spring. We will see first calves of Lawsons Rocky R4010 and Dunoon Recharge R102 in the Spring also.

Come September, our first crop of ET calves will be born out of our fantastic donor cows, including Texas Undine M508 and Witherswood Kerry P113. We are very keen to see how those match ups have worked.

New Farm - Oaklands

At the end of 2022 an opportunity arose for Boambee to expand our operation and in early 2023 it was signed and sealed. This property, local to home, is on the opposite side of the Williams River at Glen Oak. The addition of the 700 odd acres takes our total land holding to just shy of 4000 acres, allowing us to increase the breeding herd to 600 females, with future plans to extend that to 800 plus cows.

The property has a lot of good high ground with only about 70 acres of flood country, so it will work in extremely well in the wet years, but also being very fertile throughout normal seasons with its fantastic soil structure.

Northern Beef Week 2023

On Saturday, 24th June we at Boambee Angus will be opening our gates for The Land Northern Beef Week.

This year we will have on display a range of bulls, with some ready to work. Also for you to look through will be a mixture of the cattle we breed, both stud and commercial females of all ages and some of our lead donor cows, along with our stud sires. It will also be an opportunity to see some of the progeny from our AI sires.

The gates will be open on **Saturday 24th June 2022 from 9am til 4pm** at:

Boambee Angus

'Sinclair's Point'

248 East Seaham Road

East Seaham NSW 2324

Come and join us for a yarn and steak sandwich.

We look forward to seeing you then!

Snapshot Summer/Autumn 2023

We were able to get back on to work the paddocks after two very wet years

We never thought we would need to irrigate over summer after having such a wet Spring

AI program underway

The girls head back to their paddock after a day of work in the yards

Weaning Spring heifers

Cattle delivery on dusk

Give us a call to discuss your requirements
