## BOAMBEE ANGUS

Boambree Angus is family owned and operated by the Duncan family, located along the Williams River in the lower Hunter Valley of NSW. We have been breeding commercial Angus cattle for over 30 years and established our stud herd in 2017 with a large run of females from Witherswood Angus 2018 dispersal sale forming our foundation herd. We have since introduced genetics including from Texas, Ben Nevis, Millah Murrah, Knowla and Premier Angus studs.

Today we operate on 1620 hectares across 4 properties, 'Sinclair's Point', 'Balickera', 'Rosehill' and 'Oaklands'. Our herd consists of around 230 stud and 450 commercial females. Each year we pasture improve around 250 hectares of winter pastures for our cow & calf operation. This also allows us to finish steers and heifers on high performing pastures.

Pennie Lieb, Jamie Grosser, Margo Duncan, Tim Norrie, Aaron Lieb

## GENETICS

This year heading into our first on property sale, we are pleased to offer genetics from sires that we have used widely within our herd and also excited with the new sires we have selected on their do-ability, longevity and calving ease, along with softness and loads of carcass. Pedigrees within this sale draft show the importance of a great cow herd, with sons and daughters out of females that have runs on the board - consistency year in and year out for us. There is a good swag being out of first time calvers that have done an exceptional job. This years' sale team shows what we strive to breed and shows true attributes of what the Angus breed is renowned for.

The 2021 Texas sale saw Texas Iceman R725 sell to Mackas Pastoral for \$225,000. He features 7 sons in our sale, and gee whizz, they are appealing young sires. Iceman sons show plenty of growth and carcass, with a balanced data set. Lots 3, 7, 10, 14, 15, 31 and 32 show the consistent type their sire stamps on his progeny.

Premier Stunner R84 will have 5 sons in the yearling draft. Lots 24, 25, 27, 28 and 29 will feature as some of the youngest bulls within the sale draft. Stunner progeny have a lot of eye appeal with plenty of bone and weight for age.

Musgrave Avenger will line up in the yearling draft with 3 sons that pack some punch with oodles of carcass shape. We selected Avenger for use on heifers for calving ease and high growth. Sons feature as lots 20, 21 and 30. These bulls have great shape and softness which we love to see.

Sugarloaf Renown N164 has 3 sons catalogued as lots 5, 6 and 11. N164 was selected for his power and performance. He is a bull that carries himself very well on great feet and legs, with loads of sire appeal and nice depth and carcass shape, but still maintaining softness. Lot 6, Boambree Tough Nutt T45, is a great representation of his sire. T45 has plenty of depth and softness, making him very appealing to the eye. The strength in this bull can't be overlooked.

Texas Powerplay P613, Wilks Regiment 9035, Exar Pillar 9723B, Witherswood Capitalist P0151, Baldrige Alternative E125, Knowla National N64 and Sugarloaf Harvester N169 all line up within the catalogue with a few sons. These bulls were selected on growth and performance. We love the calving ease to high growth, spread with plenty of muscle shape and do-ability that their sons represent without losing the type of angus animal we strive to produce.

Sires, including Knowla Packer P141 and Witherswood Lock Up P0080 line up sons within the draft that are very sound and consistent in type. These sires have runs on the board with daughters calving down within the Boambree herd, which we couldn't be happier with.

In our select Stud Female draft, there will be females from Texas Iceman R725 and Sugarloaf Harvester N169. Both line up with two daughters each. These two sires have had a fantastic influence on our herd, with these stud females coming from the heart of the program. They have huge pedigrees behind them coming from leading female lines within the Boambree herd. Also featuring in the Stud Female lots are daughters from Musgrave Avenger, Sterling Pacific 904, Wilks Regiment 9035 and Witherswood Capitalist P0151 which have been used widely within our breeding program.

We will also offer at the completion of the stud female lots, 80 commercial heifers which will be drafted into pens of 5 to 12 head. These females have a great deal of breeding behind them from the heart of our commercial herd.

# SALE INFORMATION

## LOCATION

"Sinclair's Point"

248 East Seaham Rd, East Seaham

### From Maitland

Travel along Clarence Town Rd, turn right on to Dixon St Seaham, then turn left onto East Seaham Road.

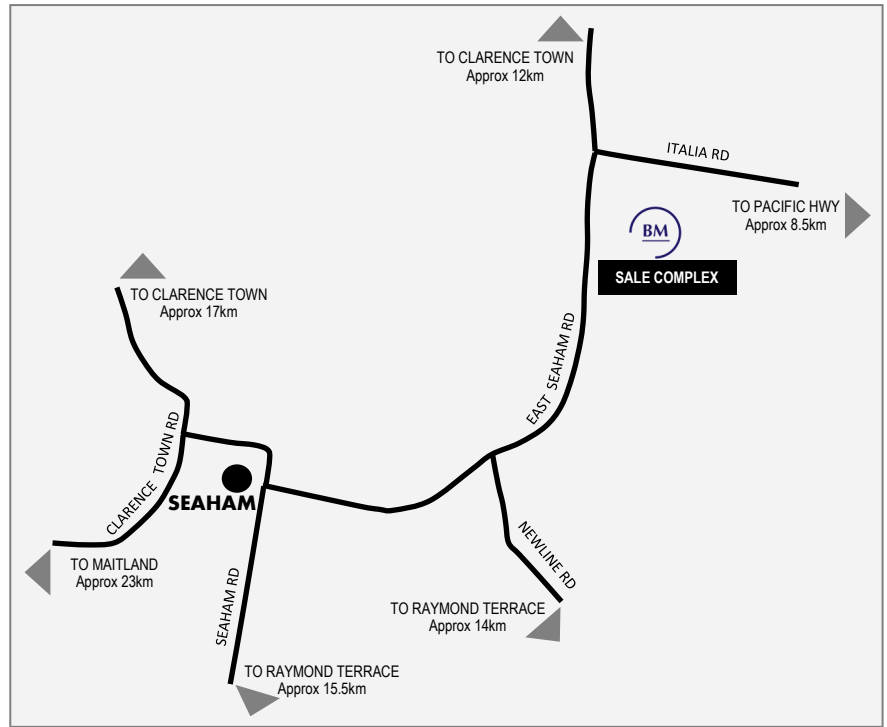

### From Raymond Terrace

Option 1: travel along Newline Rd to the T intersection, turn right onto East Seaham Road.

Option 2: travel along Seaham Rd, turn right onto East Seaham Road.

### From Pacific Highway

Travel down Italia Road to the T intersection, turn left onto East Seaham Road.

## INSPECTIONS

Pre-sale inspection of the animals are available by appointment. Please call Jamie 0429 266 881 or Greg Lidbury, Bowe & Lidbury Stock and Station Agents 0419 498 561 to arrange a time.

Sale bulls and females will be penned on sale day by 10am. **Children must not enter the pens.**

## REBATE

Vendor will offer 2% rebate to outside agents introducing buyers in writing 24 hours prior to the sale and settling on their behalf within seven days.

## REGISTRATIONS

The selling agent will be using the sale bid card system. Allow time to register prior to the sale and nominate your PIC Number.

## GST

All lots sold will be GST exclusive at the fall of the hammer. 10% will be added to the invoice.

## ADDITIONAL INFORMATION

A supplementary sheet will be available on the day with weights and scan data, including IMF, EMA and fats.

## CATERING

Refreshments will be available on the day, along with a BBQ lunch with all proceeds going to the Seaham Rural Fire Service.

## INSURANCE

It is recommended that you consider insuring your purchases, and representatives from Elders Insurance Hunter Valley will be in attendance on the day. There is no vendor insurance provided.

### Elders Insurance Hunter Valley

Brett Sutherland

0414 822 737

brett.sutherland@elders.com.au

Martin Brett

0418 938 421

martin.brett@elders.com.au

## BUYERS INSTRUCTIONS

Please complete the buyers slip available on the day from Bowe & Lidbury personnel. No verbal instructions will be accepted.

# SALE INFORMATION

## DELIVERY

The vendor will provide delivery of all Stud lots within the Hunter Valley and Manning regions free of charge. For delivery of Stud lots to other areas, please contact the vendor to discuss options and packages. Delivery of commercial Angus heifers will be the responsibility of the purchaser, however please liaise with us for assistance. No cattle will be leaving the property on sale day, however delivery will be arranged as soon as possible following the sale.

## TAKING DELIVERY

When taking delivery of your new sires, it is extremely important to realise our bulls have always run in mobs with their own age since they were weaned. If you are a single bull buyer, it will be wise to have some other animals in the yards upon arrival of your new bull, e.g. steers or pregnant cows. Our bulls have been handled with quad bikes and dogs, whilst spending a lot of time with them on foot also. When moving your new bull, do so in company with other cattle and get him used to your handling methods.

## HERD HEALTH

All bulls are fully vaccinated for:

- √ 7 in 1
- √ Pestivirus
- √ Vibrio
- √ IBR
- √ BEF (3 day sickness)

Immune ready guidelines allow buyers to access the vaccination status of cattle before purchase and informs buyers of required future treatments and actions. By purchasing Immune Ready cattle, buyers offset many of the inherent diseases that come with introducing new cattle on farm.

Immune Ready advises the buyer that a National Cattle Health Declaration will be provided to verify the treatments given. Buyers should consult with their local veterinarian for a herd health plan best suited to their locality and enterprise.

They will all require boosters in Autumn 2025.

All bulls have tested free of Pestivirus. We have a biosecurity plan implemented and are JBAS 6 accredited. A National Cattle Health Declaration will be supplied to all purchasers.

Brendan Coonan of Northern Artificial Breeders will conduct both crush side semen and morphology testing of all bulls prior to the sale.

Nikki Henderson of Henderson Livestock works closely with us to ensure the complete nutritional needs of our herd are met.

Williams River Veterinary Clinic will subject the bulls to a breeding soundness examination. We guarantee our product. If a bull should prove infertile and/or breaks down due to reasons other than injury or negligence, we will provide you with a satisfactory replacement or issue you with a credit equal to the purchase price, minus the salvage value. Request for refund or replacement must be lodged with the vendor or agent within 12 months from the sale date and accompanied by a vet certificate. We wish you all the success with your bull purchases. If you have any concerns, please contact us.

Stud female lots 34 to 37 inclusive, will either have a calf at foot or PTIC come sale day. The vendor will guarantee a live calf. For a heifer that hasn't calved prior to sale, the vendor will calve down the female prior to her leaving the property to go to the purchaser.

## ANGUS AUSTRALIA REGISTRATION TRANSFER

Upon request we will arrange transfer of Ownership with Angus Australia.

## VISITOR HEALTH & SAFETY

While our animals have all been screened for temperament and are quiet to handle, there are always risks when handling and moving around cattle.

Visitors enter the pens at their own risk. Please use common sense and be alert at all times when in the pens. We do not expect our bulls to be aggressive, but come sale day the animals are placed under pressure they are not normally exposed to. Do not crowd the animals or loiter inside the pens. Don't enter the pens unnecessarily.

***VISITORS ENTER THE PENS AT THEIR OWN RISK  
CHILDREN MUST NOT ENTER THE PENS***

Traits Observed: BWT, 200WT, DOC

We love the smartness of this female with great docility and even better skin and hair. U31 proves that having both LD Capitalist 316 and Carabar Docklands L33 in her pedigree has worked very well.

Traits Observed: GL, CE, BWT, 200WT, DOC

A daughter of Sterling Pacific 904 out of an LD Capitalist 316 sired female. The Dam of U16 is regarded highly within our herd, with outstanding grand dams on both sides coming out of the Baldrige and Witherswood Studs. She is a heifer with excellent growth and docility.

# DISCLAIMER & PRIVACY INFORMATION

## DISCLAIMER

All reasonable care has been taken by Boambee Angus to ensure that the information provided in this catalogue is correct at the time of publication, however, neither Boambee Angus nor the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue, and do not assume any responsibility for the use of, or interpretation of, the information included in this catalogue.

You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information. Any information provided after the printing of this catalogue will take precedence to that printed in the catalogue.

Please be aware that any person entering on the property for any purpose, including attendance at auction sales and open days, do so at their own risk, and the owners, employees and representatives of Boambee Angus accept no liability for any personal injury or death, suffered by you. Nor is any liability accepted for the theft, loss or damage to any personal property caused by any other persons, while on our property. Although such occurrences are rare, any persons attending the Boambee Angus sale do so at their own risk.

## PARENT VERIFICATION

Boambee Angus parent verify every animal in the herd. All animals have been tested to verify the sire and dam. The parent verification suffix that is displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia. Please note we are awaiting final confirmation on some lots within the catalogue. The outcomes will be provided in the sale day supplementary sheet.

- PV both parents have been verified by DNA
- SV the sire has been verified by DNA
- DV the dam has been verified by DNA
- # DNA verification has not yet been conducted
- E DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively

## PRIVACY

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia, and the buyer consents to the collection and disclosure of that information to Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed to Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

---

### BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following identis .....

.....  
from member .....(name) do not consent to Angus Australia using my name, address and phone number for the purpose of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Name: ..... Signature: .....

Date: .....

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale, NSW 2350.

If you have any questions or queries regarding any of the above, please contact Angus Australia on (02) 6773 4600 or email [office@angusaustralia.com.au](mailto:office@angusaustralia.com.au)
