

SERVICES & PRICING

Practical WHS. Real Results.

Practical safety documentation, compliance support and ongoing WHS partnerships for contractors, manufacturers and growing businesses.

FROM A SINGLE SWMS TO AN ONGOING WHS PARTNER

Clear scopes. Straightforward pricing. Support tailored to your work.

Practical Solutions. Safer Workplaces.

truepathsafety.com.au

Get the support you need.

Fixed-scope services for individual documents, assessments and WHS issues.

Safe Work Method Statements (SWMS)

From \$350

Activity-specific SWMS based on work methods, hazards and controls.

Job Safety Analysis (JSA)

From \$250

Task steps, foreseeable hazards and practical control measures.

Risk assessments

From \$350

Task, equipment or workplace risk assessment with control actions.

WHS policies & procedures

From \$350

Tailored procedures, responsibilities and operational documents.

Workplace safety review

From \$750

Targeted site inspection or agreed desktop review and action summary.

Incident & SafeWork NSW support

Quoted

Incident reviews, corrective actions and regulator response assistance.

Prices are indicative starting prices in AUD, excluding GST where applicable.

Complex work, travel, site attendance, urgency and additional revisions are quoted according to the agreed scope. No approval or compliance outcome is guaranteed.

Better value in one package.

Coordinated documents with a clear deliverable, consultation and revision scope.

Contractor Ready

\$1,250

Ideal for electrical, maintenance and construction contractors

- Two standard activity-specific SWMS
- One task-based risk assessment
- One pre-start or workplace inspection checklist
- One agreed consultation and revision round

Additional high-risk activities, site verification and third-party approvals are excluded.

WHS Foundations

\$1,950

For small businesses organising their core WHS arrangements

- WHS policy and responsibilities framework
- Initial workplace risk and corrective action registers
- Hazard / incident reporting and consultation arrangements
- Inspection checklist and remote implementation handover

Based on client-supplied workplace information and a defined remote scope.
Site inspections, comprehensive risk assessments and system rollout are extra.

WHY BUNDLE?

A consistent document set, fewer separate quotes and a practical starting point.
All work is tailored to the activities and information provided by the client.

Build it. Use it. Maintain it.

Practical WHS frameworks scaled to your organisation, risks and operations.

WHS System Foundations

From \$3,500

Structured setup for smaller, lower-complexity businesses

- Initial desktop gap review and implementation priorities
- Core policies, responsibilities and risk register framework
- Reporting, consultation and corrective action arrangements

WHS System Build

From \$6,500

Tailored implementation project with defined milestones

- Foundations plus agreed operational procedures and registers
- Contractor, inspection and training management frameworks
- Implementation workshops, action plan and handover

Complex / Multi-site System

By quotation

For more complex workplaces or multiple locations

- Scoped discovery, phased development and implementation
- Management reporting, assurance and review arrangements
- Optional ongoing maintenance under a separate support plan

A management system requires active implementation, worker consultation and review.
Development does not constitute independent certification or guarantee legal compliance.

Your ongoing safety partner.

Flexible, defined support agreements to help businesses manage their WHS responsibilities without employing a dedicated safety professional.

Essential Support

\$200 / month

12-month agreement

- Annual remote WHS review and practical improvement priorities
- General email advice and minor document updates as agreed

Business Support

\$400 / month

12-month agreement

- Quarterly remote WHS reviews and action register support
- Agreed document maintenance and priority scheduling

Partner Support

\$800 / month

12-month agreement

- Monthly remote WHS coordination and planned system reviews
- Action tracking, document review and incident triage guidance

CLEAR SCOPE. PRACTICAL SUPPORT.

Each support plan is delivered under an agreed service schedule and written scope. Services and availability are confirmed before engagement. Monthly fees apply under a 12-month agreement.

New SWMS, major investigations, regulator matters, site visits, travel, after-hours requests and other work outside the agreed scope are quoted separately. The client retains responsibility for WHS decisions, controls and implementation.
