Phone: 910-779-6542

CAPABILITIES STATEMENT

Core Competencies

- Procurement of commercial and government-use products
- Sourcing and delivery of cast and machined components
- Fulfillment of NSN-based solicitations from DLA and DoD
- Facility and infrastructure equipment sourcing (e.g., carts, dispensers, furnishings)
- Medical supply sourcing and distribution for federal agencies
- Packaging, labeling, and delivery in compliance with MIL-STD and DLA requirements
- Full-spectrum supply chain and logistics coordination

Differentiators

- Veteran-owned small business with extensive experience in procurement and logistics operations
- Extensive background in medical supplies and healthcare-related sourcing
- Manufacturing logistics expertise across casting, machining, and final product delivery
- Responsive to micro-purchase and simplified acquisition requirements
- Strong vendor relationships built on reliability, speed, and compliance
- Familiar with SAM.gov, DIBBS, and federal procurement systems
- Capable of managing multi-step manufacturing workflows (casting, machining, assembly)

Past Performance

- As a newly established veteran-owned small business, Night Ridge, LLC is actively pursuing federal procurement opportunities and is prepared to meet contract requirements with professionalism, speed, and reliability.

- Our leadership brings deep operational experience in logistics, medical supply sourcing, and vendor coordination, enabling us to respond with confidence to solicitations and deliver on time.
- Previously sourced a wide range of aerospace parts while supporting operations at Northrop Grumman, gaining firsthand experience with high-specification manufacturing requirements, supplier vetting, and military-grade quality assurance.

“We handle the heavy lifting — so you don’t have to.”

Mission Statement

At Night Ridge, our mission is to provide dependable, efficient, and compliant procurement and supply chain solutions to government agencies. We manage every aspect of the process—from sourcing and technical validation to inspection, packaging, and final delivery—with precision, integrity, and the operational discipline of a veteran-led team. Our background in manufacturing, logistics, and medical supply sourcing ensures we meet the diverse needs of federal customers with speed, accuracy, and full compliance.
