USD10,000,000

Hi Boomers. This intergenerational investment package will see you and your family enjoying “Endless Summers” in NZ, AU + US.

Natural Infection Control A USD268B PA Healthcare Sector

Tribal Natural Therapeutic Remedies

Australian Production

New Zealand Production

US Distribution

1,000 years of healing in a bottle

A NOSTALGIC RE-AWAKENING

C'mon Boomers, let this project reawaken your sense of adventure by heading “**back down under**” to New Zealand and Australia. No, you won't be taking your board with you this time.

You will be taking your intellectual and financial capital to invest in a Natural Infection Control business that operates in three countries.

This guaranteeing you and family, a never ending, intergenerational “**Endless Summer**” adventure.

This is how your investment will be deployed in NZ, AU, the US.

NZ—PRODUCTION—USD4M

This will be a direct investment of circa **NZD6.6M** into a NZ company that (1) produces the pure oil for export to Australia where TGA compliant, Natural Health Product (infection control) value adding takes place for US export. (2) plans to develop its main highway facing production facility and property into a unique tourist attraction.

AU—VALUE ADDING—USD4M

The AU business that this circa **AUD6M** is to be invested into, started more than 40 years ago as a TGA compliant, Natural Health Products (NHP) manufacturer. Today the business has a deep IP base with a range of new market ready products. With Southern Cross University research support, the products include varroa mite and sea-lice infection remedies.

US—DISTRIBUTION—USD2M

This **USD2M** is to be invested in the ownership of a DE Corp that is licensed in CA to distribute its Natural Health Products out of an LA area facility. Setup 12 years ago this company provides the group with a US distribution base that imports and distributes a growing range of NHP's with the aquatic farming infection remedy sales being a growth division.

ESOP: Yes, you will bring your years of team building skills to the fore by rewarding all team members with the opportunity to share in the building of this cross-border venture on its pathway to a NZ Stock Exchange listing.

This is all about an "Endless Summer" lifestyle. So let's take a look at what this three country package will deliver to you and your family.

LET'S START IN NEW ZEALAND.

This NZ tea tree agribiz sector project has been designed to operate as a tourist focussed hub that will feature a range of commercial activities. I.e.

- ◇ NZ Tea-Tree oil extraction viewing.
- ◇ Art-Gallery with artists in residence.
- ◇ A Childrens ArtHouse.
- ◇ Natural Health products retail store.
- ◇ The Tea-Tree Agribiz café 'n Gallery.
- ◇ Summer wine festivals.

NOW ACROSS TO AUSTRALIA.

This investment adds two GMP / TGA compliant Natural Health Product manufacturing facilities in beautiful areas of northern New South Wales.

- ◇ Value adding to the oil ex NZ.
- ◇ Packaging, shipping to the USA.
- ◇ Exciting new product pipeline.
- ◇ Ongoing research with Southern Cross University into new infection control.

AND THEN BACK TO THE USA.

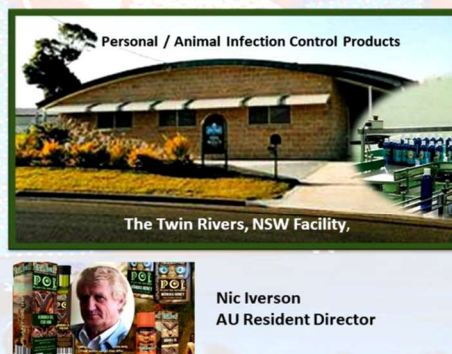

Setup 13 years ago, this Natural Health Products warehousing facility in Valencia, CA stores and distributes both inhouse and third party supplied NHP's to a growing B2B customer base across the USA.

- ◇ Plan to expand the CA facility to include a retail facility.
- ◇ Open an "Invest in NZ" Showcase.
- ◇ Distribute "Tribal" products.

MANAGEMENT (AU PRODUCTION / EXPORT OPS)

NZ oil shipped to the Australian processing facilities for TGA compliant value adding as Natural Health Products (NHP) in GMP compliant factories for export as TGA compliant, retail shelf-ready Stock Keeping Units (SKU).

MANAGEMENT (US DISTRIBUTION OPS)

SKU's exported to the US Distribution hub in Valencia CA for distribution in the USMCA free trade zone & South America.

We have prepared a “Pitch Pack” to support your DD process.
