Please note that nursery stock and availability often decline rapidly after the first of the year. All tree orders are recommended due as soon as possible; however, tree orders will be taken through the month of March of the planting year. Tree orders typically arrive during the month of April of the planting year, and you will be notified of the delivery at a later date.

Other tree varieties and different sizing options not shown in this list may be available upon request. If you do not see a tree that you want on this list or if you want a different size, ask and we will find out its availability for you. Sizes could vary depending on nursery availability.

For large tree orders, 50% of the cost of the order is due before the order can be placed. The Pipestone SWCD reserves the right to cancel any order if sufficient stock is not available or if the down payment is not met.

Please note that prices may change at any time.
