

NEXT GENERATION TURF SOLUTION

Biodegradable
Safe for the
Environment

TurfSolv® is a proprietary blend of biobased substances and compounds that is applied to soil and roots by mixing with direct sprays to the soil and applications through the irrigation systems. Contains **TS-25, a FIFRA 25(b) Exempt Insecticide / Fungicide** as an ingredient. Use to accelerate grass and root growth for the lushest, greenest turf possible. Control nematodes, insects, fungi and more.

Zero Re-Entry Time and non-Toxic

Key Benefits:

- Effective Insect control
- Effective against most forms of fungi
- Improves nutrient availability and uptake
- Enhances nutrient use efficiency
- Promotes better root growth and development
- Improves production performance
- Low price reducing production cost per acre

Product Features:

- Used at low volumes
- Consistent performance across soil types
- Compatible with dry and liquid fertilizers
- Completely soluble in water
- Contains no harmful acids or caustics
- Readily Biodegradable
- No health, safety, and environmental risks

TurfSolv® is the only product available that injects a FIFRA 25(b) insecticide/fungicide formulation into a biostimulant plant growth technology creating a unique one solution that kills insects, disease and fungi, and promotes plant growth and health at the same time.

As an Insecticide: TurfSolv® performs as an efficient broad spectrum insecticide killing insects such as nematodes, grubs, army worms, bill bugs, mites, fleas, ants, ticks, and more.

As a Fungicide: Independent laboratory testing has proven TurfSolv® effective against most types of fungi and bacteria.

As a Biostimulant: TurfSolv® contains ingredients generally considered effective to promote plant. Roots will grow twice as large as those not receiving TurfSolv®.

Application rate per acre: one (1) gallon of TurfSolv® per acre with a minimum dilution of 1:30 and a maximum 1:50. Consult product label and TurfSolv™ representative for application details as conditions vary.

TURF FARMS, GOLF COURSES, ATHLETIC FIELDS, CHILDREN'S PLAY AREAS, PARKS, PUBLIC PLACES, AND RESIDENTIAL LAWNS ALL BENEFIT USING TurfSolv® WITHOUT WORRY OF TOXIC OR HAZARDOUS CHEMICAL EXPOSURE OR DOWNTIME.

SPRAY AND PLAY, RIGHT AWAY!

Zero Re-Entry Time and non-Toxic: Increase your productivity and safety. After application of TurfSolv® you can get right back to work or play with no risk. Protect your workers, groundskeepers, patrons, family, and pets from toxic chemicals by using TurfSolv® in place of traditional insecticides, fungicides, and soil amendments.
