Great Ideas in Kitchen

Cooking skills also has different levels: Beginner, Skilled and Master. The Sous Vide is the device that can help you be from beginner to master directly

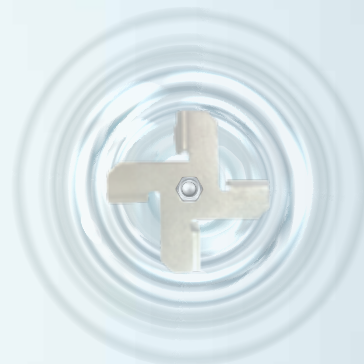

The product you are looking is

Temp./°C

1. Sous Vide cooks in **precise** temperature, even a 3°C difference will make another result, we control it in perfect $\pm 0.1^{\circ}\text{C}$ every time you cook.

2. **Circulation** ensures the water in pot heat equably and eliminates the food partial cooked or overcooked.

4. **Smart** Cooking means connect with your phone, check the cooking process at anytime, anywhere.

3. Unique control design With four high-frequency used **recipes**, one touch cooking can save your setting time.

5. **Safety** Assurance is always No.1, the IPX7 body with PTC heating element gives you double protection.

IPX7: Put the device in to water under 0.15-1m for 30 minutes, the device still works properly and inner parts keep dry.
