General Information - New Project

Has the project development been completed?
(Environmental Development, R/W clear, Plans and Bid Specifications)

No

Estimated Date of Bid?

01/31/2024

Work Type

Pavement Replacement

Funding Type

Project to be Bid or Procured

Project Location Description (Road Name from project beginning point to project end point)

LAKEVIEW DR from 345' West of Penner Dr to 575' East of East Clear Lake Dr

Detailed Project Scope

This project includes approximately 5,000 LFT of roadway improvements that include subgrade and pavement replacement, and roadway drainage improvements.

Justification

Justification

Lakeview Dr sees a large amount of traffic as it serves as the main route along the northside of the lake. It currently has a PASER rating of 3 and the pavement continues to deteriorate. There is potholing, some alligator cracking, transverse cracking and longitudinal cracking. Two pavement cores were taken that indicate inadequate subgrade on this roadway.

ADA/Title VI

Does this project coincide with your ADA Transition Plan?

Yes

ADA Coordinator Name

Guy Rogers

ADA Coordinator Phone

2604959158

ADA Coordinator Email
