

Locations

Palmetto Corner is a Maryland-licensed and CARF-accredited Residential Treatment program, focusing on helping individuals with behavioral health issues associated with drug and/or alcohol dependency (ASAM Levels 3.3 & 3.5). Our facilities are 16-bed, friendly, homelike settings. The smallness allows for more one-on-one care – truly an intimate individualized treatment experience!

We provide services at two convenient locations:

12360 Palmetto Church Road

Princess Anne, MD 21853

and

7888 Parsonsburg Road

Parsonsburg, MD 21849

Palmetto Corner

Residential Treatment &
Recovery

Our Services

Palmetto Corner's treatment plans are designed to produce long-term solutions to a broad range of substance abuse and addictive behaviors, including anxiety, depression, and trauma. Each client is offered the following services to successfully reach the goals of their individualized treatment plans: Medication Stabilization and Management, Life Skills, Group and Individual Therapy, Music and Art Therapy, Yoga, Spiritual Services, A Family Therapy Session, Mindfulness, 12 Step Program, Peer Support Services, Nutrition Education, Smoking Cessation, Community Resource Management, Narcan Training, Discharge Planning and more.

Our Mission

Palmetto Corner recognizes that no two people are identical. Rather than using a one-size-fits-all approach, we provide individualized treatment based on each person's needs for mental, emotional, physical, and spiritual healing. We know healing starts from within, and this holistic approach empowers each client with essential knowledge, support, and tools to *turn a corner* and maintain a healthy life.

Admission Process

Palmetto Corner accepts Maryland State insurance. Clients who do not currently have insurance but are unemployed may qualify. Clients can often be admitted the next business day after contact is made.

Call today to get back the life you deserve!

Lengths of Stay

The program is a 30-day minimum inpatient stay. However, due to the individualized care, stays may vary in length, as extensions may be granted for those requiring more clinical treatment.
