

Extremely Important to Follow These Steps

Here are the instructions for downloading and installing the “Post it, Save it” Application:

1. **Download** the file titled: “postitsaveit.zip” from your browser:
 - a. You might be prompted that the file is not safe.
 - b. **Choose “Keep” or “Download anyway” option** from the three dots next to the warning.
 - c. **Extract** files from the Zip folder to your computer.
2. **Temporarily disable Windows Security:**
 - a. Press Windows key + I to open Settings
 - b. Click on "Privacy & security" on the left sidebar
 - c. Click on "Windows Security"
 - d. Click on "Virus & threat protection"
 - e. Under "Virus & threat protection settings", click "Manage settings"
 - f. Toggle off "Real-time protection"
 - g. Leave this window open to re-enable protection later
 - h. Repeat process in any other Antivirus software you might have.
3. **Install Post it, Save it Application:**
 - a. Run the postitsaveit.exe file
 - b. The application will install to:
C:\Users\[YourUsername]\AppData\Local\Programs\Postitsaveit (YourUsername refers to the actual username you are using on your computer)
 - c. A desktop shortcut will be created automatically
4. **Add an exclusion for the application folder:**
 - a. Return to the open Windows Security window
 - b. Scroll down to "Exclusions" and click "Add or remove exclusions"
 - c. Click "Add an exclusion" and select "Folder"
 - d. Navigate to C:\Users\[YourUsername]\AppData\Local\Programs\Postitsaveit
(YourUsername refers to the actual username you are using on your computer)
 - e. **Select the folder to add it as an exclusion** (the app will keep failing unless this is done before re-enabling Security)
5. **Re-enable Windows Security:**
 - a. Toggle "Real-time protection" back on

You should now be able to run Post it, Save it Application without issues.
