

April 2020 Kayaking Report

Silver Springs River Report - March 14, 2020

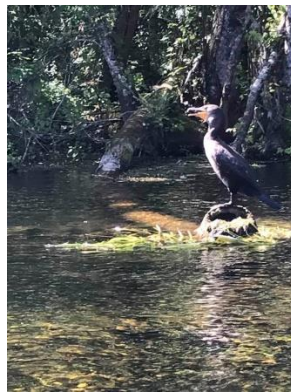

After some delays at the launch our group of 22 kayakers launched at the Silver Springs State Park on a beautiful sunny day.

We proceeded down river where we saw many of Florida's native wild life (gators, manatees, turtles, and assorted birds) as well as monkeys.

Because there was no shuttle from Wayside Park because of the Corona Virus, for those who rented we decided to paddle half way and then paddle back up stream to the launch site.

Once we were all loaded up most of us drove to the *Mojo Grill* where we had a great meal and good conversation.

Because of the Corona Virus situation April's trip to Rainbow River has been canceled. We will reschedule the trip for a later date.

Mike
