

ST. MARTINS RACE PERPETUAL PLAQUE

The **ST. MARTINS RACE** is the longest race of the H.B.Y.C. racing season. The race is from Hudson, out to the St. Martins Reef Marker, and back, for a total of approximately 20 nm.

This race is an endurance race for both boat and crew, especially if the wind is out of the Northwest.

The Winners Plaque was first awarded in 2011 to Dave Zimmer, who sailed his catamaran **“CAT CAN DO”**, to the St. Martins Reef Marker and back in 1 hour and 47 minutes! That’s an average speed of over 11 knots!
