Why choosing **Atlas**

Useful Learning Experience

We believe in improving people's competence in an ever-demanding work environment and in aligning the employers' expectations with the employees' professional objectives and growth capabilities.

A useful learning experience for an adult learner is about more than spending a pleasant time at the training facilities. It is about analyzing, concluding and practicing more, and about assuring a useful and practical application of the learning to achieve tangible and consistent results in the workplace.

Why choosing Atlas

Reducing Costs Without Compromising Quality

While believing that training is a serious investment, we are sensitive to the need of our clients to reduce cost and get maximum return on their investment. Respecting our clients' training investment means in the first place providing the learning experience that meets precisely their practical needs.

We provide our clients with market competitive prices while making sure to maintain our commitment to high quality standards. We achieve it by streamlining communication, making effective use of technology, adopting flexible and smart use of resources and hiring only qualified and efficient associates.

Solution Based And Flexible Approach

Our management team comes from field and operational backgrounds where flexibility and productivity are key competitive advantages.

We embrace flexible operating models that help our clients save time and cost and be ahead in their market.

We train our team to have a solution-oriented mindset and to upkeep high levels of openness, control and responsiveness while dealing with client's needs, wants and expectations.

OUR SERVICES

🔺 Training provision:

Atlas Training services develops and delivers a wide range of training courses that includes but are not limited to: Health and safety, Lifting and Scaffolding, Oil and gas, Strategy and corporate risk management, technical training, management and soft skills.

All our training courses can be customized and delivered at a basic, intermediate or advanced level, depending on the target audience and organizational requirements.

🔺 Competency assessment and assurance:

Services include but are not limited to role-specific and position-based competency profiling, development of competency framework, competency gap analysis, follow-up and implementation of remedial plans and CPDs.

🔺 On-Site coaching and upskilling programs:

Atlas Training services collaborates with experts in various technical and admirative fields to provide customized one to one field coaching to help employees develop key competencies and improve critical skills and proficiency. Such coaching programs will ensure that your employees are uplifting to the level of performance targeted and stay relevant in an ever-changing and challenging workplace.

OUR SERVICES

⚠️ Leadership promotion and development:

The program targets executive leadership teams and senior managers and assess leaders' strengths and weaknesses using a Leadership Index covering all criteria of strategic leadership. The index analysis results will be used to identify where leaders need to focus time and attention to develop a higher level of leadership performance, productivity and commitment.

⚠️ Health, Safety and Environmental (HSE) Consultancy Services

Atlas training services provides a wide array of HSE consultancy services ranging from risk profiling, identification and management to the development of reliable and cost-effective solutions enabling organizations to ensure compliance and achieve business excellence.

Services include but are not limited to

- ◆ Industrial and work site HSE Inspection.
- ◆ Environmental impact assessment.
