ABOUT ME

A native of Key West-FL, of Spain & Cuban descent. Art has always had a place in the hearts of each of our family members. Abuelas were painters, Mother & Tia were dancers, Tio & cousin were musicians & an actor, children & grandchildren are painters too. Through each generation as well as my upbringing we overcame several life challenges. As a child it was my escape. Through our dark times we found light through Art, whether from music, dancing, painting, creative writing, improv, poems & lyrics. Having one life event after another I went decades without painting. In 2023 I decided to no longer place my love for art on the back burner, doing so reignited my fiery spirit to no longer say "no, I don't have time" to my creative inner self; the dancer.. the painter..the writer. My creative soul now smiles with recognition as I say "I see you and I will not hide you anymore"

Thank you to each of my current & future supporters. I hope to only grow from here and improve my skills.

"I fell in love with the sheer meaning of existence and my own creativity, I use art to express this."
