

TO WHOM IT MAY CONCERN

I have known Jean Martin and her family for some 6 years now, and would highly recommend Jean to look after and care for any dogs. With her wealth of knowledge and experience as a Senior Veterinary Nurse, she is an ideal person to care for and look after my dogs, during my absence. She attends to their needs superbly, exercises them regularly together with Rosie, Jean's faithful Labrador, with a calm and kind manner. Nothing is too much trouble for Jean; she always sends me photos of our dogs, showing them having lots of fun, and together with Jean's two young daughters, the dogs become family members in Jean's house, loving the attention and calmness of their home.

I would not hesitate in recommending Jean to look after anyone's dogs, for a day, a week or two weeks. I know that if I go away, my dogs have a wonderful holiday with Jean and her family.
