HANDTECH ELEVATORS

THE LIFT EXPERTS

PASSENGER ELEVATOR

HandTech Elevators proudly presents an exclusive range of strongest and safest lifts in the passenger segment. Available with low headroom structure you will find pre-assembled passenger lifts ready for swift and inexpensive installation. From technical specification to installation, customer interaction and satisfaction are made sure. One of the major highlights of our passenger elevators is its energy efficiency while outerring a fast and elegant product making sure that each ride is enjoyable as possible.

GOODS & SERVICE ELEVATOR

HandTech Service and Goods lifts are manufactured for combined passenger and goods use and bridge the gap between commercial passenger lifts and fixed platform hoists. Within our goods lifts collection, you will find space saving installation options, self-supporting galvanized steel structures and many more design features to make your transportation tasks less challenging and more secure.

HOSPITAL BED ELEVATOR

Throughout the day hundreds of patients, visitors, doctors, nurses and staff move between the floors from emergencies and surgeries to bedside care. Hospital elevator must meet specific hygiene requirements and should provide access for people with divergent needs including wheelchairs. HandTech Elevators and Platform lifts meet the special needs of all types of hospitals and healthcare facilities. The depth of the cab of a hospital lift is sufficient to transport stretcher or hospital bed with attendant physician or health officer. The lift might have single or double entrances.

HANDTECH ELEVATORS

THE LIFT EXPERTS

HOME ELEVATOR

We know that buying a home lift is often a 'once in a lifetime purchase', so choosing the right product is essential. Each HandTech luxury elevator ensure a low energy model with noiseless operating system and is available in a wide variety of high-quality wood and metal finishes. Either you are looking for a discreet, minimal lift to assist you in your movement around the house or want us to provide a complicated glass lift solution, we have got the perfect solutions to suit your home elevator requirements. we can provide budgetary ones!!

INDUSTRIAL ELEVATOR

HandTech Elevators introduces an innovative method of safe and reliable vertical transportation in industrial plants and construction sites. Ideal for vertically transporting both materials and personnel in elevated work sites, our secure and reliable construction hoists eliminate the need for separate personnel and material elevators. We Ensure single and dual cab construction elevators.

COMMERCIAL ELEVATOR

Any commercial space can be busy with people moving up and down the floors all day, sometimes carrying heavy or bulky objects. Engineered for safety and luxury, HandTech commercial elevators are built to carry heavy loads and have a bigger cab size. Besides adding style to a commercial set up our customized commercial elevators utilize only lesser space with trouble free installation matched with little maintenance. This is one investment that will keep providing you dividends for decades.

HANDTECH ELEVATORS

THE LIFT EXPERTS

OBSERVATION ELEVATOR

HandTech observation elevator is an ideal MRL traction solution for Malls, Hotels, premium Apartments etc. Available in a wide range of design options and finishes. HandTech observation elevator can be customized to reflect the unique style and ambiance of your buildings

ESCALATOR AND MOVING WALKER

Escalators, travellators and moving walkways are used to raise or move people or goods from one location to another within a building or a multi-story building. Escalators are conveying devices that are used to move people vertically on individual, linked stairways. In installing escalators in a building, many things must be taken into consideration. The most important factors are the height to be climbed and the distance available to run the unit; since they determine the pitch and length of the escalator. Other design factors include.

MODERNISATION

Provide a better lift experience that delights instead of frustrates. Eliminate DC Generator noise for smooth and quiet rides and convert a tired old building to have a new modern feel. HandTech Elevators works with Non-Proprietary Design, microprocessor-based elevator controls, isolation transformers, geared and gearless hoisting machines, digital drives, door operating motor, updated door equipment, new elevator car aesthetics, safety requirements, new landing and car fixtures, new LED lighting and disabled requirements.

Whether four floors or forty floors, no matter who the original manufacturer was, we have a wide range of capabilities to help you bring older, inefficient systems up to today's elevator standards. We're in business to help you save money and energy, improve service, boost tenant satisfaction and ensure tenant safety
