

World Rabies Day is being facilitated by the international non-profit organization, **GARC Rabies Alliance**, and the global series of events will culminate on September 28 - World Rabies Day. a global initiative aimed at raising awareness and accelerating efforts towards elimination of the world's most fatal disease. Tails of Hope, the first and only non-profit Spay/Neuter clinic in Mercer County, PA, located in Hermitage, PA, is sharing this year's theme "Stronger Together".

This year's World Rabies Day theme, "Stronger Together," highlights the essential role of collaboration in achieving rabies elimination with these key messages:

- **Everyone has a role to play** in rabies prevention and elimination, and coordinated action across all levels of society is essential for maximum impact.
- **Collaboration strengthens impact and reduces duplication**, helping partners share resources, improve efficiency, and extend reach to underserved communities.
- **Education, vaccination, and surveillance must work together** to create effective, sustainable systems for rabies prevention, preparedness, and elimination.

>>>>>>>>>>> Free Rabies Vaccine Clinics at Tails of Hope <<<<<<<<<<<

In honor of World Rabies Day, Tails of Hope joins the global rally locally to take action and pave the way for a world free from this preventable disease. Serving our community, and in alignment with Tails of Hope's belief that essential, life-saving vaccines should be made available and affordable to everyone, Tails of Hope is offering free* Rabies Vaccines for pet cats and dogs, by appointment only, during the month of September 2026. *Clients at Rabies vaccine appointments will only pay a \$10 Tech Fee per animal. **Call to request an appointment: 724-346-4673**

This year, let's all take responsibility, work together, and drive real change starting in our own community!

You can save their lives

GARC
RABIES ALLIANCE

- Rabies is a deadly disease that affects the lives of many people and animals.
- The main cause of rabies is the bite of a rabid dog.
- Half of all dog bites and human rabies deaths occur in children.
- Although rabies is almost 100% fatal, it is also 100% preventable.

We can all help to keep the people and animals in our lives safe from rabies

Learn how to behave around dogs to avoid dog bites

If you are bitten, wash the wound with soap and running water, and seek medical help immediately

Vaccinate your dogs regularly – this is the best way to prevent rabies

Save the lives of your loved ones, both humans and animals, by learning the facts and sharing them–
