Grace Title Case #: _____

Survey Request Form

Property Address: _____

What is a House Location Survey?

A Location Drawing - Shows the property lines and locates any and all improvements on the lot, using the legal description and any recorded easements, right of ways, etc. A location drawing is accurate up to one foot in each direction. A location drawing is not based on markers at the property.

Do I need a Survey?

Many lenders do not require a survey, but some purchasers request a survey for their own information. The cost is typically \$250-\$330 (based on the average property being (1) acre or less), payable to Duley and Associates, Inc. on the day the surveyor is scheduled. If the property is over (1) acre a quote can be requested prior to ordering your survey. If you choose to not order a survey at this time, you can purchase a location drawing anytime with your local surveying company.

WOULD YOU LIKE US TO ORDER A SURVEY? _____ YES _____ NO
