

Hair Analysis Report For:

Ms. Busy Bee
Month00, 20XX

Click on picture above to see all your hair photo

POROSITY	Low Porosity
TEXTURE	Fine to Medium Width
HAIR TYPE	Type 4A – 3C

Porosity: Low Porosity

Your hair cuticles are mostly closed and non-porous

Texture (Hair Strand Thickness): Fine to Medium

The majority of your hair samples are fine in width (40-60 microns). The remainder of your hair samples are medium in width (60 – 80 microns).

Hair Type/Wave Pattern: Type 4A - 3C, Coiled to Curly

The majority of your hair is type 4A (Coiled) with a mixture of 3C (Curly)

Recommendations:

Based on your hair assessment, your goal is healthy hair. With low porosity hair, your challenge is getting water into your hair shaft but once it's in, it stays in.

Continue with your current routine and keep your hair moisturized.

Follow-up with your hair stylist to discuss recommended routine and product changes.
