## SPECIFICATIONS

|                      |                                                                                               |
|----------------------|-----------------------------------------------------------------------------------------------|
| Product Type :       | True Balanced DAC                                                                             |
| Master Clock / DAC : | 49.000 MHz                                                                                    |
| Digital Inputs :     | 2 x Digital RCA (S/PDIF), 2 x Digital XLR (AES/EBU), 1 x Optical, 1 x USB that supports 2xDSF |
| 0                    | Streaming via Wifi or ethernet                                                                |
| Input Impedance :    | Digital 110 $\Omega$ XLR - 75 $\Omega$ RCA                                                    |
| Outputs :            | 1 x XLR analog / 1 x RCA analog                                                               |
| Remote Control :     | Apple Remote Included                                                                         |
| Power Cable :        | Standard PC powercord included - options available on request at extra price                  |
| Dimensions :         | 100 (H) x 435 (W) x 395 (D) mm (connectors not included)                                      |
| Weight :             | 12 Kg                                                                                         |

| ITEM # | MODEL                              | DESCRIPTION                   | RETAIL    |
|--------|------------------------------------|-------------------------------|-----------|
| 410205 | RD-101 - Silver                    | DAC with DSD support over USB | \$ 14.400 |
| 410206 | RD-101 - Black                     | DAC with DSD support over USB | \$ 14.400 |

## SPECIFICATIONS

|                         |                                                                              |
|-------------------------|------------------------------------------------------------------------------|
| Product Type :          | True balanced Phonostage                                                     |
| Inputs :                | 1 x XLR analog / 1 x RCA analog                                              |
| Load options :          | 3 $\Omega$ - 47 K $\Omega$ (see load setting)                                |
| Input Sensitivity :     | Range 125 $\mu$ V - 16 mV (see gain setting)                                 |
| Type of Gain :          | Floating gain based on cartridge output                                      |
| Outputs :               | 1 x XLR analog / 1 x RCA analog - (min. Gain = 47dB & max. Gain = 75dB)      |
| Remote Control :        | Sold separately                                                              |
| Power Cable :           | Standard PC powercord included - options available on request at extra price |
| Dimensions Phonostage : | 135 (H) x 435 (W) x 402 (D) mm                                               |
| Weight Phonostage :     | 21,2 Kg                                                                      |
| Dimensions PSU :        | 111 (H) x 250 (W) x 257 (D) mm                                               |
| Weight PSU :            | 5,2 Kg                                                                       |

## SPECIFICATIONS

|                     |                                                                                       |
|---------------------|---------------------------------------------------------------------------------------|
| Product Type :      | Mono balanced Power Amplifier                                                         |
| Inputs :            | 1 x XLR analog / 1 x RCA analog                                                       |
| Input Impedance :   | 10 K $\Omega$                                                                         |
| Input Sensitivity : | 0,7 V rms XLR / 1,4 V rms RCA                                                         |
| Outputs :           | 2 x set balanced speaker out in parallel                                              |
| Output Power :      | 2 x 100w rms Class A (8 $\Omega$ ) / 2 x 150w rms Class AB (8 $\Omega$ ) - switchable |
| Other Options :     | Soundmode Rock / Soundmode Classis from VA MP-S201 included                           |
| Remote Control :    | Sold separately                                                                       |
| Power Cable :       | Standard PC powercord included - options available on request at extra price          |
| Dimensions :        | 310 (H) x 435 (W) x 610 (D) mm (each)                                                 |
| Weight :            | 75 Kg (each)                                                                          |

| ITEM # | MODEL                              | DESCRIPTION            | RETAIL    |
|--------|------------------------------------|------------------------|-----------|
| 420716 | SM-103 - Silver                    | Power Amplifier - Mono | \$ 67.200 |
| 420714 | SM-103 - Black                     | Power Amplifier - Mono | \$ 67.200 |
| 420715 | SM-103 - White (made to order)     | Power Amplifier - Mono | \$ 77.280 |
| 420717 | SM-103 - Champagne (made to order) | Power Amplifier - Mono | \$ 77.280 |
| 420718 | SM-103 - Bespoke (made to order)   | Power Amplifier - Mono | \$ 80.640 |

### MP-S201

## SPECIFICATIONS

|                     |                                                                                      |
|---------------------|--------------------------------------------------------------------------------------|
| Product Type :      | Stereo Balanced Power Amplifier                                                      |
| Inputs :            | 2 x XLR analog (1 per channel) / 1 x XLR analog for mono mode                        |
| Input Impedance :   | 10K $\Omega$                                                                         |
| Input Sensitivity : | 0,7 Vrms                                                                             |
| Outputs :           | 1 x set balanced speaker out                                                         |
| Output Power :      | 2 x 25w rms Class A (8 $\Omega$ ) / 2 x 700w rms Class AB (8 $\Omega$ ) - switchable |
| Remote Control :    | Sold seperately                                                                      |
| Power Cable :       | Standard PC powercord included - options available on request at extra price         |
| Dimensions :        | 445 (H) x 505 (W) x 708 (D) mm                                                       |
| Weight :            | 125 Kg                                                                               |

| ITEM # | MODEL                               | DESCRIPTION              | RETAIL     |
|--------|-------------------------------------|--------------------------|------------|
| 430602 | MP-S201 - Silver                    | Power Amplifier - Stereo | \$ 102.000 |
| 430600 | MP-S201 - Black                     | Power Amplifier - Stereo | \$ 102.000 |
| 430601 | MP-S201 - White (made to order)     | Power Amplifier - Stereo | \$ 117.300 |
| 430603 | MP-S201 - Champagne (made to order) | Power Amplifier - Stereo | \$ 117.300 |
| 430604 | MP-S201 - Bespoke (made to order)   | Power Amplifier - Stereo | \$ 122.400 |
| 420050 | RC-010 - Black                      | Systems Remote Control   | \$ 1.140   |

Valid from April 2018

## MASTERPIECE SERIES

### MP-M201 mk II

## SPECIFICATIONS

|                                 |                                                                                       |
|---------------------------------|---------------------------------------------------------------------------------------|
| Product Type :                  | Twin chassis True Balanced Mono Power Amplifier                                       |
| Inputs :                        | 1 x XLR analog                                                                        |
| Input Impedance                 | 10K $\Omega$                                                                          |
| Input Sensitivity :             | 0,7 V RMS                                                                             |
| Outputs :                       | 1 x set balanced speaker out                                                          |
| Output Power High Frequencies : | 2 x 100w rms Class A (8 $\Omega$ ) / 2 x 300w rms Class AB (8 $\Omega$ ) - switchable |
| Output Power Low Frequencies :  | 2 x 500w rms Class AB (8 $\Omega$ )                                                   |
| Other Options :                 | Active crossover module designed for large speaker systems with bass towers           |
| Remote Control :                | Sold seperately                                                                       |
| Power Cable :                   | Standard PC powercord included - options available on request at extra price          |
| Dimensions PSU / AMP :          | 265 (H) x 435 (W) x 610 (D) mm - each chassis (4 chassis in total)                    |
| Weight PSU / AMP :              | 100 Kg each - 2 pieces (PSU) / 50 Kg each - 2 pieces (AMP)                            |

| ITEM # | MODEL                                     | DESCRIPTION            | RETAIL     |
|--------|-------------------------------------------|------------------------|------------|
| 430703 | MP-M201 mk II - Silver                    | Power Amplifier - Mono | \$ 168.000 |
| 430700 | MP-M201 mk II - Black                     | Power Amplifier - Mono | \$ 168.000 |
| 430701 | MP-M201 mk II - White (made to order)     | Power Amplifier - Mono | \$ 193.200 |
