"why make so much of fragmentary blue  
in here and there a bird, or butterfly,  
or flower, or wearing-stone, or open eye,  
when heaven presents in sheets the solid hue?"

since earth is earth, perhaps, not heaven (as yet)--  
though some savants make earth include the sky;  
and blue so far above us comes so high,  
it only gives our wish for blue a whet."
